The stricken city. Panorama of San Francisco before the catastrophe, showing principal buildings that are partially or wholly destroyed.

# HEART IS TORN FROM GREAT CITY.

## San Francisco Nearly Destroyed By Earthquakes and Fire—Hun- dreds of Killed and Injured—Destruction of Other Coast Cities—California's Greatest Horror.

By the Associated Press—P. M.

SAN FRANCISCO, April 19.—It looks now as if the entire city would be burned, following the great quake of yesterday. The government is furnishing tugs to convey news to Oakland, but the confusion is so great that they cannot be relied upon. It will be impossible to send full details for several days.

The latest reports from Leland Stanford University indicate that the magnificent stone buildings of that institution have suffered severe damage. Many of the buildings were ruined by cracks, which split them from cornice to foundation. The buildings are practically intact. Only a few structures collapsed in Berkeley, the earthquake shock being slight there.

At 10 o'clock at night, the fire was unabated, and thousands of people are fleeing to the hills and clamoring for places on the ferry boats.

The damage is now believed to have reached \$200,000,000 and 50,000 people are thought to be homeless.

Under the fierce heat of the sun today, 29 bodies lay in Washington Square, where they were taken at the order of the Mayor when the morgues and Hall of Justice basement held all that could be cared for.

At 10 p. m. last night the newspapers ceased all effort to collect news, and the Associated Press force is compelled to act independently.

### THE PRESIDENT'S MESSAGE:

The President sent the following telegram to Gov. Pardee, Sacramento:

"Sir: Rumors of great disaster from an earthquake in San Francisco, but know nothing of the real facts. Call upon me for any assistance I can render.

(Signed) THEODORE ROOSEVELT, Washington, April 18."

The President later sent the following additional telegram to Gov. Pardee:

"It was difficult at first to credit the catastrophe that has befallen San Francisco. I feel the greatest concern and sympathy for you and the people, not only of San Francisco, but of California in the terrible disaster. You will let me know if there is anything that the national government can do.

(Signed) THEODORE ROOSEVELT."

Gov. Pardee sent the following in reply:

"Owing to interruption of telegraphic communication extent of disaster in San Francisco not yet known here, but no doubt calamity is very serious. People of California appreciate your kind inquiry and offer of assistance. State troops doing patrol duty, and if federal assistance is needed will call upon you.

Signed, "GEO. C. PARDEE"

## TOSSING SIX HOURS ON SEISMIC WAVES.

SAN FRANCISCO, April 18.—[Special.] During six hours of mortal dread and nameless terror San Francisco was today tossed upon the seismic waves of the most disastrous earthquake known to the history or the traditions of America's west coast. In the mad confusion and helpless horror of this night uncounted bodies of dead men and women are lying in morgues and under unuplifted walls. It is believed that nearly 1000 lives have been lost. The number cannot fall far short of that, and it may prove to be much greater. Fire and flame have added to the destruction, the ruination

and despair. The material losses are beyond computation. Wounded and hurt inexpressibly the chief city of the West lies at this hour humbled to the dust, blackened, battered and charred, her glory of yesterday but a hideous dream, and the moans from her stricken heart filling the pitying world.

The first shock came while still the mighty city lay deep in slumber, weary with the revelries and pleasures of the night before. In the quiet homes, in the crowded hotels, men had not yet awakened to the strifes and endeavors of the new-dawned day. The stars had but waned, and the morn was just breaking through the mists and fogs that hung in gray curtains across the waters of the placid bay and over the waiting hills. In through the Golden Gate were blowing the first piping winds with the greeting of the sea to the green-

clad heights and flower-strewn fields that skirted the shores and stretched away into the dim distances beyond. The sailors still slept in their hammocks in the harbored ships. A few wan-eyed wanderers of the night were stealing through the streets, a few early toilers were astir. But that was all.

Then came the rumble of deep thunder from the mighty bowels of the startled earth. The city shook like an aspen leaf, and her gray highways suddenly cracked and split as though the batteries of Satan and his upper hell had been opened against them from underneath. Along shore the wharves warped and creaked, and the rakish shacks of the water front fell like stacks of cards. The hills of Sausalito and Piedmont, the Oakland heights and the dim bluffs of San Jose rocked like forests in the wind. The waters of the bay were

## PROF. DAVIDSON'S SUMMARY.

Prof. George Davidson, of the University of California, formerly connected with the United States Geodetic Survey, said tonight:

"The earthquakes came from north to south, and the only description I am able to give of its effect to me is that it seemed like a terrier shaking a rat.

"The shock came at 5:13 o'clock. The first sixty seconds were the most severe. From that time it decreased gradually for about thirty seconds. There was then the slightest perceptible lull; then the shock continued for 60 seconds longer, being slighter in degree in this minute than in any part of the preceding minute and a half.

"There were two very slight shocks which I did not record at 5:17 and 5:27.

"At 6:50 p. m., there was a sharp shock of several seconds.

"I was in bed, but was awakened at the first shock. I began to count the seconds as I went toward the table where my watch was, being able by much practice to closely approximate the time in that matter.

## EARTH COOLING, THE CAUSE.

"Regarding the cause, I maintain, as I always have, that it is the earth cooling on the inside. The cooling brings about contraction, which is bound to bring about a readjustment of the earth's surface.

"I have heard talk of the eruption of Vesuvius having connection with this disaster, but that is rank nonsense. My seismograph was twisted out of shape by the shock, so that I have no record from that.

"As to telling whether there will be a repetition of the earthquake, I can no more predict than I could have predicted the one of today."

## GOVERNOR'S LEGAL HOLIDAY.

Gov. Pardee has issued a proclamation making today a legal holiday.

## CALIFORNIA'S GREATEST HORROR.

The worst earthquake shock ever known on the Pacific Coast; both in respect to the losses in life and destruction of property, began at 5:13 this morning, when the great business section of San Francisco was shaken to its very foundation, and massive blocks went tumbling down as if made of cardboard.

The entire waterfront district of the metropolis is made ground as far up as New Montgomery street. On this had been erected imposing business edifices, thickly centered, reaching from North Beach to way south of Market street.

Included in this area is the new ferry building, one of the most important structures on the Pacific Coast; the well-known Palace and Grand Hotels, and others of importance; the Merchants Exchange, the famous Stock Exchange; great wholesale houses whose firm names are known throughout the country; the Nevada Bank, Western Union and Postal tele-

the Chronicle, the Examiner and the sixteen-story Call newspaper building.

## THE FIRST SHOCK.

The first shock, apparently, was not the severest, but it sufficed to arouse sleepers and thus warn them of the impending danger. To this fact, perhaps, is due the saving of unnumbered lives, as shock followed shock until the whole north end of the city was wrecked.

Following the first shock, almost immediately came a heavier one, and then, swaying and prostrating great buildings came the third shock, which was the cause of the chief destruction.

## PRACTICALLY DESTROYED.

It seemed that the city was practically destroyed. From the ruins of the buildings shaken down by the five quakes that followed in such close succession, arose great bursts of flames which swept inward from the bay.

Water mains had been destroyed by the quakes, rendering the fire department engines, such as could be dragged from fallen walls, almost useless, and a report went out, subsequently denied, that Fire Chief Sullivan had perished.

The police department was put to work early and with the assistance of Federal troops sent from the Presidio military reservation on the outskirts of the city by Gen. Funston, succeeded in enforcing some measure of order in the panic which followed the disaster.

## SEARCHING THE RUINS.

From lodging-houses that had fallen, and from other quarters, poured streams of naked or half-clothed people, dazed, hysterical or frenzied, not knowing which way to turn in the great horror of devastation and still further impending peril which had seized the city.

Husbands were separated from wives and mothers from children.

Business men trembled with the thoughts of the losses which had befallen them and over all palled the overmastering sense that the danger might not be ended.

The firemen, with the assistance of the volunteers permitted to work by the troops and the police, vigorously endeavored to discover human beings buried under the masses of stone, brick, mortar and wood, and to snatch the corpses, and such person as might be living, from the rapidly increasing volume of flame.

At 9:45 a. m. the city was a mass of fire from Montgomery street to the water's edge. The fire fighters, in their efforts to stay the progress of the flames, used dynamite freely in destroying structures which might leave material for the pitiless element to fasten upon.

South of Market street was a sea of roaring red destruction from which came reports of exploding gas tanks.

The city morgue was early filled and Mechanics' Pavilion, across from the City Hall, which was early reported in ruinous condition, was turned into a mammoth receptacle for the bodies of the dead, and as a resting place for the injured.

## MORGUES OVERFLOWING.

Before 10 a. m. three hundred dead had been taken out, and this number grew and grew until the space reserved could hold no more. All the physicians, surgeons and nurses in the city, who had escaped alive from the terrible cataclysm, hastened to offer their assistance in the service of those who were in great need of help.

Meantime, the flames spread, and new reports of death and demolition poured in upon the nearly exhausted workers.

## SAN JOSE STRICKEN BY WRECK AND FLAME.

*Fifteen Large Buildings Fall and Are Consumed—One Hundred and Fifty Persons Believed to Have Been Killed—Many Bodies Burned.*

(BY DIRECT WIRE TO THE TIMES.)

SALINAS, April 18.—Reports from points north of here which have telephone connection with San Jose are to the effect that the metropolis of the Santa Clara Valley, San Jose, is a mass of ruins, and that not a building in the city escaped injury. The number of persons killed is placed at 150, and it is stated that this estimate may be too low.

Fifteen large buildings are entirely down, and what was left of them after the earthquake was destroyed by fire. A number of bodies were burned in the ruins.

Hotel Vendome is a wreck, twenty people being killed in the collapse.

The courthouse was so badly damaged that a large portion of it will have to be rebuilt.

The Mayor has called out the National Guard company, and 500 citizens have been sworn in as special officers.

The Dougherty block was completely burned, and one woman was killed.

Dr. De Crow was killed and his wife badly injured.

Every business building is demolished. Martial law prevails with 500 deputized men.

The postoffice was half wrecked. The First Presbyterian Church demolished and the courthouse wrecked.

## SAN DIEGO SHAKEN.

*Border Town Experiences Heaviest Earthquake Shock in Fifteen Years but no Damage Is Done—Jar Is Plainly Felt at Santa Ana.*

(BY DIRECT WIRE TO THE TIMES.)

## SAN DIEGO HEAVILY SHOCKED.

SAN DIEGO, April 18.—(Exclusive Dispatch.) The shock here this afternoon at 4:30 o'clock was the heaviest in fifteen years. The direction was from the northeast to the southwest. No damage was done.

"The shock coming from the northeast to the southwest," says Observer Carpenter of the weather bureau station, "is the usual direction, as the records for fifteen or sixteen quakes show that 75 per cent. have come from that direction."

The weather bureau station is in the tallest building in the city. The clock was not stopped but the pendulum was made to wobble.

National City, four miles south of here, reports three shocks, the first a heavy one followed by three lighter ones.

The shock penetrated to all sections of the county.

## GUEST MISSING.

SAN DIEGO, April 18.—(Exclusive Dispatch.) E. S. Babcock has been a guest at the Palace Hotel since Monday. He was to leave for San Diego last evening but it is believed he remained in the hotel all night.

Up to 9 o'clock this evening no word has been received from him but he is believed to be safe. He usually occupied rooms on the fourth floor on the Jessie Alley side which, according to the reports, would be favorable to his escape.

Dr. R. M. Powers of this city, most eminent grand commander of the grand commandery Knights Templar, State of California, was also a guest at the hotel.

## SAN DIEGO TO RELIEVE.

SAN DIEGO, April 18.—The awful disaster in San Francisco rendering thousands penniless, has caused a quick response from the people of San Diego. A monster benefit will be given at the Isis Theater next week, the proceeds to be devoted to the relief of the suffering of San Francisco. All the best talent in this city have volunteered their services and a liberal subscription is assured.

## HORROR AT ASYLUM; TWO HUNDRED PERISH.

*When Quake Came at Agnews the Walls of the Building Collapsed, Carrying Floor Down and Dropping Roof on Inmates.*

(BY DIRECT WIRE TO THE TIMES.)

SALINAS, April 18.—(Exclusive Dispatch.) The reports received here from the State Hospital for the Insane at Agnews are even half true, that pretty little city, lying in the center of probably the most picturesque valley in the whole State, has been the scene of a tragedy in which the loss of life is as appalling as that at San Francisco.

The reports have not been confirmed and may be exaggerated, but the news which comes here from there is that more than 200 persons have been killed in the State Hospital, most of them being patients.

Among those reported dead are Superintendent Kelly, his son and daughter. Mrs. Kelly is said to be fatally injured.

Up to 9 o'clock tonight 120 bodies had been taken from the ruins, and it is reported that there are more than 100 more still under the immense pile of brick and stone—all that is left of one of the finest public buildings in the State.

The unfortunate insane patients had no chance to escape. Locked in the various wards for the night, their keepers being the only persons about the institutions who were up, they were crushed under walls which, when the heavy shock came, fell inward, carrying the floors down and dropping

## SIWASHES LOSE IN TEN ROUNDS.

LONG EXCITING GAME FULL OF LOOLOO ERRORS.

Siwashes Belt Makes a Fine Showing, But Is Beaten by a Sacrifice, a Hit and an Error in the Last Inning—Tosser Is Slammed Around Hard, But Luck Favors Him.

Los Angeles 2, Seattle 1.

With the echoes of a wrecked and burning city sounding in their ears, the Los Angeles and Seattle teams played ball yesterday afternoon at Chutes Park as if it was only an ordinary day and not the one that brought destruction and death and ruin to our sister city to the north. The men played the game as if their lives depended on it, and the thousand or more fans present yelled their loudest and applauded their strongest just as if there was no sorrow in the land. Queer things baseball fans are, for they practically thought of nothing except the game they were watching.

Those who could entirely divorce their minds from the calamity at San Francisco saw an exciting ten-round game, full of errors, hard batting and pretty plays that kept the watching ones on edge from the first jump. Los Angeles made four costly errors and the Siwashes slammed Tosser for eleven hard swings and yet the locals won at the finish through a sacrifice, a timely error and the only error that the Siwashes made. It was a nerve-racking struggle from beginning to end, and with the northern horror piled on it, the fans certainly spent a strenuous day.

The Siwashes put in their pitcher Belt, and he is a crack that will bear watching this season. Timely hits, wildness and that error beat him, but there was no disgrace attached to the defeat. He had the Lookees guessing after the first ball and showed in every way that he knows his business. With better luck the game might have gone to a draw.

There were no particular fielding features, but the play was interesting at all stages on account of the free hitting. Tosser was rapped hard and the Los Angeles fielders were kept on the jump continually. The infield in particular, couldn't relax a moment and it must have been disheartening to Belt to pitch such a pretty game and then lose it at the last moment.

The locals scored first in the sixth after two were out, when Ross and Brashear were passed, Ross scoring on Dillon's swipe to center. Then in the first of the eighth the Siwashes came through with two runs on Kane's double, one of Tosser's errors, a fielder's choice, a steal and singles by Rockenfield and McGilvray. This put the Siwashes ahead, but the locals came back in their half of the eighth with a run on Bernard's double, Ross's single and Cravath's long fly to center. The ninth was without result and the Siwashes got nothing in their half of the tenth. For Los Angeles, Ross opened with a grounder to Rockenfield, which he juggled and then threw wild past first base. Ross scored for second on this. He advanced to third on Brashear's sacrifice and easily scored when Cravath hit a hard smash to the center fence, which would have been a home run had it not collided with a telephone pole against the fence and bounded back into the grounds.

Double plays—Tosser to Ais to Brashear, 1; to Brashear to Dillon, 1; to Dillon to Cravath, 1.  
Hit by pitched ball—Tosser.  
Time of game—1 50.  
Umpire—H. E. Smith.

GAME TODAY.  
In the ball game this afternoon Bergeman or W. Hall will pitch for Los Angeles, and C. Hall or Vickers for Seattle. This will be a ladies' day, and the fair ones will be admitted free to grounds and grand stand.

BIG BENEFIT GAME.  
BASEBALL FOR CHARITY.

In common with the rest of humanity that sympathizes with the suffering of San Francisco, the Los Angeles and Seattle baseball teams will give an extra game next Monday afternoon at Chutes Park for the relief fund. The admission fee will be 50 cents, and every ball player and all the people connected with the game in any way will give their services free of charge, and in addition will pay their way into the grounds. It is said that tickets will be placed on sale in every available place in this city and every man, woman and child not otherwise engaged is expected to at least buy one or more tickets, whether they are used or not.

U.S.C.—"POLYS."

WILL PLAY BALL TODAY.  
U.S.C. baseball men will cross bats with the Polytechnic High nine this afternoon on the U. S. C. campus. The "Polys" have played consistent ball thus far, and a good game is anticipated.

NO MORE BOXING.

Attell Will Do Only Enough Work to Keep Him to Weight and Prevent Staleness.

Abe Attell cut out his boxing yesterday, and from now until he enters the ring for his battle with Frankie Neil, tomorrow night, he will do only enough work to keep to weight and prevent staleness.

Attell's last day of boxing was strenuous for his brother Monte, and for young Barry, who is a rough mixer. The featherweight champion has been testing his hitting powers on his trainers, and has demonstrated that he has a punch calculated to bring home the money if it gets to the right spot.

Manager McCarty was perturbed yesterday regarding the safety of Frankie Neil, who has returned to San Francisco from Carroll's Gardens, at Alameda, where he finished his training. Neil was to take train yesterday.

## Quarter Sizes -- Perfect Fit

When the man with a quarter-size foot gets to the trying-on stage in other shoe stores—that's where the shoe pinches.

And, judging by the amount of our business since we opened our full range of Regal quarter-sizes, we are already fitting quarter-size Regals to plenty of people who used to have their "half-size" troubles before Regals came to town.

A quarter-size is about one-twelfth of an inch—and that's a pretty close variation of measurements for even the best of the custom bootmakers.

No size is missing in our Regal Store—no foot-shape unprovided for.

Send for Style-Book. Mail Orders Promptly Filled.  
Regal Oxfords hug the heel—(never chafe) fit at the sides—(never gape) and snug up under instep. Built on quarter-size Oxford lasts—that's why!  
\$3.50 and \$4.00  
**REGAL**  
FOR MEN AND WOMEN  
302 S. Broadway, Bradbury Building  
A. A. Van Degrift, Mgr.

late hour McCarty was in the dark as to whether the little fighter had been caught in the holocaust that has devastated the city. Neil resides in the northern part of the city, and it is thought he is safe.  
Attell's brothers were sufferers in the earthquake, and the little fighter anxiously awaited news from his mother, who is within the devastated zone.  
Jimmy Britt has been away from San Francisco several days, and it is not thought likely he was there when the city was destroyed, and the match with Herman is in no way interfered with.

FUND IS GROWING.  
Indications Are That Money Necessary to Send Miss May Sutton Abroad Will Be Raised.

Over \$200 has been subscribed to defray the expenses of Miss May Sutton to England, where she is to compete in the international tennis match and defend her title against the lady finishing highest in the various tournaments to be held in June.  
The fund is not growing as rapidly as desired, for in order to compete Miss Sutton must sail early in May, thus affording her an opportunity to become accustomed to the courts and recuperate from a sea voyage. As there is, however, the fund will reach the desired amount, \$1000, in due time.  
Thus far nothing has been done to work, ending Miss Florence Sutton to Philadelphia to compete in the national championship tennis tournament, which will be about the same time as the international play. As there is yet time to prepare for this contingency, all efforts will be devoted to the fund for Miss May Sutton.

POOR HEALTH

soon makes you irritable, nervous and despondent, but there is no need to remain in such a condition. We offer you a true medicine that will not only restore your health but will keep you so, and that is

Hostetter's Stomach Bitters  
For 53 years it has been demonstrating its ability to cure such ailments as  
Sour Stomach, Poor Appetite, Heartburn, Costiveness, Biliousness, Indigestion, Dyspepsia or Malarial Fever.

## Hats for the Horse Show

Charming innovations add a distinctive grace and beauty to our display of Horse Show Millinery—the unique shapes, the oddly applied plumes, the striking color effects—in fact, a presentation of individual conceptions from our own artists and from Paris reflects every idea of unusual merit for this kind of occasion.

There are hats of filmy laces, braids and embroideries, in white, black and every delicate shade, trimmed with plumes, flowers and ribbons, in such a variety of styles that everybody is assured of a selection both becoming and appropriate.

In point of value, a very special effort has been made. Prices ranging from \$7.50 to \$18.00. Allow us to suggest that you make an early selection.

## GOV. PARDEE ASSISTS WITH STATE TROOPS.

[BY DIRECT WIRE TO THE TIMES.]  
SACRAMENTO, April 18.—[Exclusive Dispatch.] Adjt.-Gen. Pardee, acting upon orders of Gov. Pardee, has sent telegraphic orders to company commanders of nearly all the National Guard regiments in this part of the State, directing them to hold their regiments for immediate service at San Francisco. This action is taken in anticipation of the necessity for placing San Francisco under martial law. The services of troops will be necessary to maintain order and to assist in the relief work, but until a call comes they will not be ordered out. A request for them is expected any hour.

Gov. Pardee left for San Francisco on a special train this forenoon.

### EARLY SUMMARIES.

SAN FRANCISCO, April 18.—At 12:25 p. m. the life at San Francisco is now reported as close to a normal.

The property losses are estimated at \$250,000,000 in San Francisco alone.

Alameda and the surrounding region and San Jose will probably be that total.

The continues to rage in the stricken district.

San Jose residents are exploring the ruins for their dead. Losses suffered \$1,000,000 losses.

The Sisters' Convent at Watsonville has burned, and the town went through a bridge near the city.

The DeForest Wireless Telegraph Company in this city endeavoring to establish communication with the Pacific coast at San Francisco from its Santa Barbara office.

The newspapers, having had their power cut off, have closed and will issue one paper for all from the office of the Chronicle, which has its own power plant.

There was a great rush at the different banks by depositors who wanted to draw out their deposits, but the banks refused to keep their doors closed.

Under the Chief of Police, the saloons have been closed. The fires are spreading rapidly, and unless the wind changes from the west and blows the flames toward the bay, the city will stop the destruction of the city.

News received at Chicago say that the large office building of the Union Pacific Railroad, situated at Market and Main streets, was one of the first to fall.

A railroad dispatch said the shock was felt as far east as Nevada, which is fully fifty miles beyond Wadsworth.

Wadsworth is in the town of Collinsville, on the Sacramento river, which was wrecked by the earthquake shock. No one was killed.

Reports at 8 o'clock show that the entire district bounded by Howard, East and Sansome streets, embracing practically the entire wholesale portion of the city, has been swept by the fire.

The district bounded by Second, Market, Eighth and Main streets has been devastated. In the latter district are many of the city's finest and most substantial buildings.

The area covered by the flames up to the present time is about eight square miles, or several hundred city blocks. Most of the buildings untouched by the flames have been damaged by the earthquake shocks.

The city is under martial law, and four thieves were caught by the soldiers this afternoon for looting. The soldiers have orders to shoot without warning any one caught in a suspicious manner. The City Hall has been damaged. Measures already have been taken for the care of the destitute. They will be fed and protected in the city park and the public squares.

### COMMITTEE OF SAFETY.

Following have been named by Mayor Schmitz as a committee of safety:

Geo. Shea, James Reed, Pisis, W. P. Woodward, S. G. Dillman, J. B. Rogers, David Rich, H. T. J. A. Powell, Frank Maestreh, Clem Zohm, Geo. H. H. Hemm, W. H. Maloney, H. G. Scott, I. J. Harrison, Homer Wing, Frank Anderson, W. J. Bartlett, Martin, Allen Pollard, Mark Gertsle, H. V. Ramsdell, Harrison, Paul Cowles, M. H. De Young, Clausen, Radolph Spreckels, C. W. Fay, John McNaught, Thos. Garret, Geo. A. Knight.

The area covered at San Francisco by flames up to 6 p. m. is about eight square miles, or several hundred city blocks. The district bounded by Vallejo, Howard, East and Main streets, embracing practically the entire wholesale portion of the city, has been swept clean.

The South-of-Market-Street section, flames devastated the district bounded by Second, Market, Eighth and Folger.

At 6 p. m. the pecuniary losses in the business section of San Francisco are estimated at \$100,000,000.

Insurance companies say they will pay all losses in full, but will not compensate for losses by earthquake and other causes.

Mayor Schmitz has appointed a Committee of Safety of prominent citizens.

The district between Post street and the Mint is the worst feature of the situation is that San Francisco is without water. The mains are broken, and there is no prospect of relief. There is no water nearer than the bay. What will San Francisco's great population do?

## Horse Show Fixings

Quite sure everything's ready for tonight? Shirt? Scarf? Gloves? Hat? Hosiery?

When passing the Silverwood stores today, better glance at the display of fixings and see if there's not something you ought to have.

Such a big lot of new things have arrived the past week, we'll have interesting news to tell you—watch the Silverwood ads.

And don't forget the new Ready-and-Right Clothing—\$15 to \$40.

The Horse Show colors have been employed in making strikingly attractive displays in the Silverwood windows at both stores.

# DOWNEY HOME TRACT

New High School Just Completed at Downey

Beautiful Lots Only 30 Minutes Out

**\$100 to \$375**

Terms: \$25 to \$50 Cash and \$10 Per Month

Don't pay enormous prices for "far-out" city property when lots in Downey Home Tract (with all improvements) are purchasable for \$100 and up.

This beautiful property touches the very heart of Downey, one of Los Angeles prettiest and most progressive suburbs.

It is only 30 minutes from First and Spring streets via Southern Pacific. See train schedule below.

Downey Home Tract has finely graded and oiled streets, cement curbs and walks—-independent water system—water piped to every lot.

Downey is the coming suburb—the advent of the new electric line will send present values soaring. The time to buy in the Home Tract is NOW.

Downey has no saloons—seven churches, an excellent school system, substantial banks, live newspapers, and a half hundred business institutions.

Call at our office for information in detail.

Trains Leave Los Angeles at 8:30 a. m. and 2:00, 2:30 and 3:10 p. m. Leave Downey for Los Angeles at 8:20, 9:10 and 11:34 a. m. and 4:25 p. m.

[illegible]

A high-contrast, black and white photograph of a book's fore-edge. The image captures the thickness of the pages, which appear as a series of dark, textured bands. The binding structure is visible, showing the spine and the edges of the pages. The lighting is dramatic, with deep shadows and bright highlights, emphasizing the physical texture and form of the book.

## HALF OF THE CITY LYING IN RUINS.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, April 18.—Earthquake and fire today have put nearly half of San Francisco in ruins. At least 200 people have been killed, a thousand others injured and the property loss will exceed \$100,000,000.

Thousands of people are homeless and destitute, and all day long streams of people have been fleeing from the stricken districts to places of safety.

### FIRE RAGE ALL DAY.

The furious fires have been raging all day, and the fire department has been powerless to do anything except to destroy the building threatened. All day long explosions have shaken the city, and added to the terror of the inhabitants.

Following the first shock there was another within five minutes, but not nearly so severe. Three hours later there was another slight quake, and reports from districts outside of San Francisco indicate widespread damage.

### PALACE AND GRAND GONE.

All efforts to prevent the fire from reaching the Palace and Grand Hotels were unsuccessful, and both were completely destroyed, together with all their contents.

### BEST THEATERS IN RUINS.

All of San Francisco's best playhouses, including the Majestic, Columbia, Orpheum and Grand Opera house, are a mass of ruins. The earthquake demolished them for all practical purposes, and the fire completed the work of destruction.

The handsome Rialto and Casserly Buildings were burned to the ground, as was everything in that district.

### MECHANICS' PAVILION MORGUE.

The scene at the Mechanics' Pavilion during the early hours of the morning and up until noon when all the injured and dead were removed because of the threatened destruction of the building by fire, was one of indescribable sadness. Sisters, brothers, wives and sweethearts searched early for some missing dear ones. Thousands of persons hurriedly went through the building inspecting the cots on which the sufferers lay, in the hope that they would find some loved one that was missing.

### THE CORPSES LAID OUT.

The dead were placed in one portion of the building and the remainder was devoted to hospital purposes. After the fire forced the nurses and physicians to desert the building, the eager crowds followed them to the Presidio and the Children's Hospital, where they renewed their search for missing relatives.

Up to late this afternoon, more than seven hundred and fifty persons who were seriously injured by the earthquake and the fire had been treated at the various hospitals throughout the city.

### KILLS THREE MEN.

The front of the Bailey and Lacist Building on Clay street, near Montgomery, fell in killing three men.

Capt. Gleason of the Police Department was seriously injured at noon by the falling of tiling.

### NEWSPAPER ASSISTANCE.

The stereotypers and pressmen of the Examiner and the Call, as soon as the shock was felt, rushed out of their buildings and found a coffee house at Stevenson and Third streets had collapsed. They at once set to work with axes and everything in the way of an implement with which they could provide themselves to rescue those inside.

### TESTIMONIAL TO STEEL.

Today's experience has been a testimonial to the modern steel building. A score of these structures were in course of erection, and not one of these suffered. The completed modern buildings were also immune from harm by earthquake. The buildings which collapsed were all flimsy wooden or old-fashioned brick structures.

### FIRE FURY WAS WORSE.

The damage by earthquake does not begin to compare with the loss by fire. The heart of the business section of San Francisco has been destroyed by fire. An area of thickly covered ground of eight square miles has been burned over, and there is no telling when the fire will be under control.

### MAYOR SCHMITZ ABOUT.

Mayor Schmitz was about early, and took measures for the relief and protection of the city. Gen. Funston was quickly communicated with and by 9 o'clock the Federal soldiers were guarding the streets and assisting the firemen in dynamiting buildings.

### LOOTERS TO BE SHOT.

Gen. Funston realized that stern measures were necessary, and gave orders that looters were to be shot at sight. Four men were summarily executed before 3 o'clock this afternoon.

### FOURTEEN HUNDRED TENTS.

At a meeting of fifty citizens called by the Mayor it was announced that 1400 tents would be pitched in Golden Gate Park, and arrangements had been made to feed the destitute in the public squares.

### THE FINANCE COMMITTEE.

A Finance Committee, with James D. Phelan at the head, was appointed and Mayor Schmitz was instructed to issue drafts for all funds needed on this committee.

Clara Spreckels (Call) Building.—(Destroyed.) Corner of Third and Market Streets. 315 feet high. This was the highest office building in San Francisco.

### CITIZENS' COMMITTEE.

A general meeting of the Citizens' Committee has been called for tomorrow morning. It is probable that even with the spirit and willingness shown by the people of San Francisco outside aid will be necessary.

### MESSAGE FROM PRESIDENT.

A message from the President was received this morning, and it had a cheering effect. George Gould also telegraphed, offering assistance.

## QUAKE WORKS HAVOC IN ADJACENT TOWNS.

*Destructive Effect of the Disturbance Felt in Hollister, Salinas, Watsonville, Monterey, Redwood City, Stanford and Santa Cruz.*

SACRAMENTO, April 18.—A short time after the big shock came a message from Suisun, Solano county, saying that a long section of track had disappeared from view. It was learned later that, in one place between Spring and Teal stations, the Suisun marshes, for a distance of one mile and a half, the track had sunk down three to six feet, and at another point nearly one thousand feet of track went out.

Trains which were dispatched for San Francisco early this morning had to be brought back, and they went to the Bay City by the Lathrop route. The track sunk by the earthquake is near the place where a loaded passenger train came near going out of sight. It is feared that it will take several weeks to repair the present collapse, and in the meantime, all trains will be sent by the Stockton route.

Reports received from the train dispatcher's office tell of minor earthquake damage at Suisun and Tracy. SANTA ROSA FIRE SWIFT. (BY THE ASSOCIATED PRESS—P.M.)

OAKLAND, April 18.—The water system of Santa Rosa was destroyed by the earthquake and the place caught fire, the flames sweeping everything before them.

Ten thousand people are homeless and the loss of life probably will reach into the hundreds. Identification so far impossible.

The whole business portion of the county tumbled into ruins. Main street piled on both sides many feet deep with fallen buildings. Not one building is left intact.

The former four-story Courthouse is now a pile of broken masonry, nothing left standing.

Citizens fled to the fields and hills to watch destruction of city.

BIG SAN JOSE MORTALITY. (BY DIRECT WIRE TO THE TIMES.) SALINAS, April 18.—11 p.m.—(Exclusive Dispatch.) Later reports from San Jose place the number of dead at between 50 and 100. The information comes over a railroad wire to the nearest point with which connection by telephone remains, it being impossible to get a telegram either to or from San Jose.

The new Hall of Justice, just completed at a cost of \$200,000, St. Patrick's Church, the Presbyterian Church, the High School, and a portion of the State Normal are in ruins.

The Vendome Hotel annex collapsed with the first heavy shock, burying many guests in the ruins. Thomas O'Toole, a wealthy rancher, well known throughout the Santa Clara valley, was taken from this building dead.

Dr. DeGow, who slept in his office, was killed under the falling walls of the building. His body was taken out of the ruins this afternoon.

The bodies of eight Italians were taken from the ruins of a cheap lodging house near the railroad yards this afternoon. Many other occupants of the place were injured, and it is believed there are other bodies under

the wreckage of the building. Railroad employees are working tonight to reach some of those who were buried and who are believed to be still alive.

TEN MEN KILLED. (BY DIRECT WIRE TO THE TIMES.) SALINAS, April 18.—(Exclusive Dispatch.) Ten men were killed at Loma Prieta, in Santa Cruz county, by a landslide caused by the earthquake. The men were at work in a mill which stood alongside a steep hill.

When the shock came an enormous section of the hill dropped bodily upon the mill, burying it and killing every person in it. The names of the dead were not obtainable at Santa Cruz, but the report of the calamity has been confirmed tonight from that city.

FELT AT SAN BERNARDINO. (BY DIRECT WIRE TO THE TIMES.) SAN BERNARDINO, April 18.—(Exclusive Dispatch.) San Bernardino was shaken at 4:20. The town clock was stopped by the vibration which destroyed San Francisco this morning. Miss Mattie Blosser of San Francisco, superintendent of the Penal Mission, became temporarily insane as a result of reports from San Francisco, and rushed wildly down the street predicting the destruction of San Bernardino.

WOMAN KILLED AT HOLLISTER. (BY DIRECT WIRE TO THE TIMES.) HOLLISTER, April 18.—(Exclusive Dispatch.) Six buildings were wrecked here by the earthquake, but only one life was lost. The Grangers' Union building, the largest in the city, was demolished.

The wife of Dr. Griffith was caught under falling timbers and instantly killed.

Dr. Griffith was struck on the head by a falling timber and rendered unconscious for a time. When he was restored to consciousness and was told of the death of his wife he became insane and it was necessary to restrain him.

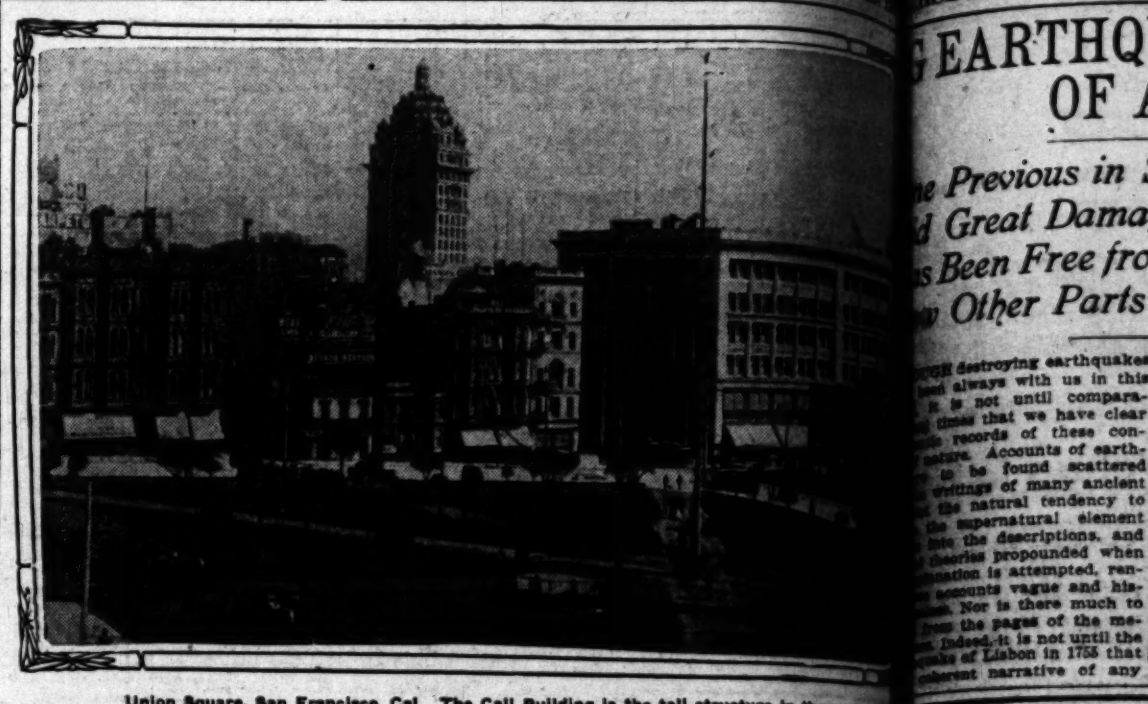

The property loss will amount to more than \$100,000.

TWO KILLED AT STANFORD. (BY THE ASSOCIATED PRESS—P.M.) STANFORD, April 18.—Stanford and Palo Alto suffered considerably by the earthquake. At Stanford many of the handsome buildings were demolished and two people were killed. One of them was Junius Robert Halls of Bradford, Pa., and the other was Otto Gutz, a fireman.

Six other students are lying in the Palo Alto Hospital with bruises, cuts and internal injuries. These are: Ross D. Howard of San Francisco; Henry L. Dearing of Santa Ana; A. Froil, Halbert R. Thomas of Los Angeles; Robert W. Westwick of Santa Barbara, and W. H. Masters of Portland, Or.

OTHER CITIES DESTROYED. (BY THE ASSOCIATED PRESS—P.M.) OAKLAND, April 18.—Passengers arriving from other cities in California bring tales of death and disaster from nearly all Santa Cruz, Monterey, Gilroy and Hollister are reported wrecked. The death list at Santa Cruz is reported large.

With one exception, all buildings at Stanford University were demolished. No lives were lost.

Union Square, San Francisco, Cal. The Call Building is the tall structure in the center.

## HUNDRED THOUSAND PEOPLE HOMELESS.

*Gen. Funston Wires War Department That Tents and All the Rations That Can Be Sent to San Francisco Are Needed.*

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, April 18.—The first message received from Gen. Funston arrived here at 11:40 o'clock tonight. It was addressed to Secretary Taft, who had already retired. The message follows: "Secretary of War, Washington: We need thousands of tents and all the rations that can be sent. The business portion of the city is destroyed and about 100,000 people are homeless. Fire still raging. Troops all on duty assisting police. Loss of life probably 1000. Best part of residence district not yet burned.—Funston."

Orders will go forward from the War Department tomorrow morning to the adjacent posts to carry out Gen. Funston's recommendations.

Gen. A. W. Greely can throw 3000 soldiers into the city from the Presidio and fortifications adjoining San Francisco. In the Presidio there are three companies of the Fourteenth Cavalry, three batteries of field artillery and ten companies of Coast Artillery. At Fort Mason, there are two companies of engineers. Fort McDowell has five

companies of infantry. Fort Baker has two companies of Coast Artillery and at Alcatraz there are five more companies of infantry. The total number of tents available is 2345. In an emergency temporary shelter can be afforded by these tents to accommodate 3000 persons.

The Pacific squadron, under the command of Admiral Goodrich, sailed yesterday from San Diego for San Pedro Bay. Secretary Bonaparte said this squadron can be sent to San Francisco without delay in case its assistance is needed.

TWENTY BLOCKS AFLAME. (BY THE ASSOCIATED PRESS—P.M.) NEW YORK, April 18.—The Western Union is in receipt of a dispatch from their chief operator at San Francisco, filed about 8:30 p.m., San Francisco time, in which he states that he has been along Montgomery street to the section formerly occupied by the Western Union building. He says that this whole section is aflame, and is surrounded by United States troops. The block bounded by Montgomery, Bush, Pine and Sansome streets is doomed. Fifteen or twenty blocks along the waterfront are now a mass of flames.

physical necessities of the sufferers be first attended to.

Goldberg, Bowen & Co., sent word that they have placed all their stores at the disposal of the city, including the provisions contained therein.

ESPEE COAL SHEDS SINK. The sheds over the Southern Pacific's long wharf on San Francisco Bay have completely collapsed, and thousands of tons of coal went into the bay. The long wharf was one of the most important shipping points about the bay, and freight traffic will be interrupted considerably.

OAKLAND SENDS RELIEF. There is little dynamite available in the city. At 9 o'clock Mayor Schmitz sent a tug to Pinole for several cans of the explosive. He also sent a telegram to Mayor Mott of Oakland. At 10:40 o'clock, he received this reply to his Oakland message:

"Three engines and hose companies leave here immediately. Will be followed by dynamite as soon as obtained."

SUFFERERS TO BE ATTENDED. Mayor Schmitz sent out orders that

of bodies thus far recovered the figures will be excessive.

INDESCRIBABLE CONFUSION. The entire city presents a scene of indescribable confusion. The fire zone is so large that it takes two and one-half hours to go around it. Every automobile, vehicle and wagon in the city was pressed into service as ambulances.

ARMY OF "SPECIALS." Mayor Schmitz appointed 3000 or more special policemen. It is estimated that aside from the city fire department there were 25,000 fire fighters. Marvelous

FROM OFFICER OF SANTA FE. Trainmaster Kincaid of the Santa Fe Railroad, who has been in San Francisco, wired that at 7:40 o'clock the entire district bounded by Ferry and California streets on the north, Harrison street on the south, and extending for one mile west along Market street, is a complete ruin. All ferry slips are wrenched to such an extent that their use has been almost impossible. The Santa Fe road suffered comparatively little damage, except of loss in Menadnock Building, which was absolutely ruined, as was the big Cronsey structure.

DEAD NOT TO BE ESTIMATED. The numbers of the dead cannot be readily estimated. Many perished miserably in the broken-down wooden houses along the waterfront, in the Mission and along Market street. Falling walls pinned many victims fast, and they were compelled to suffer untold agonies while fiery flames crept toward them.

ESTIMATES AT 5000. Some believe that the number of deaths will reach the appalling figure of 5000, but judging from the number

ous deeds of heroism on all sides.

MANY THRILLING. There were many thrilling scenes. The deeds of valor of men and police were recorded in the accounts of these catastrophes. Accounts of earthquakes are not found in the annals of many ancient civilizations. The supernatural element in the descriptions, and theories propounded when disaster is attempted, render accounts vague and his-

torical. Nor is there much to be learned from the pages of the past. Indeed, it is not until the earthquake of Lisbon in 1755 that a coherent narrative of any

kind is found. The earthquake of Lisbon was a disaster of such magnitude that it was not until the earthquake of Lisbon in 1755 that a coherent narrative of any

kind is found. The earthquake of Lisbon was a disaster of such magnitude that it was not until the earthquake of Lisbon in 1755 that a coherent narrative of any

## THE CITY IN BRIEF.

### NEWS AND BUSINESS.

#### Brownlee Reception Postponed.

The reception to have been given on Friday afternoon at the Woman's Club-house for Miss Jane Brownlee has been postponed owing to the terrible North-western disaster.

#### Safe at Home.

Mrs. Edward Chambers, wife of the general freight agent of the Santa Fe road, who was reported to have been in San Francisco with her children, is at her home in this city.

#### Welsh Church Concert.

An interesting concert was given at the Welsh Presbyterian Church, Fifth and Crocker streets. Several readings were given and Mrs. Brundage sang. The entertainment was for the benefit of the church and was a success.

#### New Jersey Basket Picnic.

The recently organized New Jersey Society of Southern California will hold an old-fashioned basket picnic and harvest home at Sealake park Tuesday, May 1. All former residents of New Jersey and visitors from that State will be welcomed.

#### Jap Was in Bad Luck.

T. Arakawa, a Japanese, complained to the police yesterday afternoon that he had been lured into the purchase of a home by a man giving the name of J. Jones, at Fourth and Wall streets, and an investigation by the detectives disclosed a woman in the case, and resulted in the return of the purchase price to the Jap.

#### Fell from Car.

Mrs. W. L. Tilleston of No. 1514 West Twelfth street fell from a Washington street car at Second and Spruce streets last evening and was severely bruised about the limbs and body. The woman was removed to the Receiving Hospital, where she was given temporary medical attendance, afterwards being taken to her home.

#### Pickpockets About.

R. W. Evans of Glendale was jostled as he was about to board a street car at the corner of First and Broadway yesterday when the crowd was great. The woman was removed to the Receiving Hospital, where she was given temporary medical attendance, afterwards being taken to her home.

#### Mexican Found Dead.

The body of a Mexican, about 25 years of age, was found in a vacant lot near the Arcade station yesterday afternoon by a boy. The body was removed to Brea's morgue, where an inquest will be conducted. There were no marks indicating that the man had met with foul play. Nothing could be found on the man's clothing to indicate his identity. He was dressed as a laborer, and had the appearance of one suffering from tuberculosis.

#### Bankrupt, Says Ikeda.

H. Ikeda, whose troubles with M. Itow were ventilated Tuesday in the Superior Court before Judge Gibbs, has filed a petition in bankruptcy. He describes himself as a manufacturing agent resident in Los Angeles. Besides the \$25 debt to Itow, which is secured by a mortgage on "The Oaks" in the Amusement Park at Portland, he lists unsecured debts of \$1570. His assets are "The Oaks," valued at \$2000, and \$50 worth of household goods. He also owns to \$5 cents in cash. The household goods are claimed as exempt.

#### BREVITIES.

To Presbyterians and friends of Occidental College. A banquet will be given by the Presbyterian Laity Association, at which the guest of honor will be Dr. J. Willis Rhee, the new president of Occidental College, at Westminster Hotel, April 20th, at 8 p.m. Ladies and gentlemen invited. Secure tickets at Shubert's store, corner 3rd and Broadway. Robert Young, president; Home phone 8231. R. W. Bailey, secretary; both phones 473.

\$150 is our regular price for 10-year gold-filled reading eyeglasses and spectacles, with best at crystal reading lenses. Others will ask you from \$25 to \$50, and very often at that price the value is not equal to ours. Our ground-order glasses are correspondingly low in price, and guaranteed to be the very highest in quality. Clark's Jewelry and Optical Store, 111 S. Broadway, near Fourth street, opposite new Hellman building.

Quite a little excitement was created at the announcement, El Shah-Sana gave a silk rug away. Mr. M. W. Conner of the Melrose Hotel was the winner. There will be another rug given away today at the close of the sale. Sale starts at 11 a.m. and 2:30 p.m. at 114 S. Broadway.

British subjects are requested to send their addresses to the undersigned. All British born persons are requested to advise to execute wills appointing resident executors. C. White Mortimer, British Vice-Consul, Los Angeles.

The San Francisco office of the Los Angeles Times is in room 41, Chronicle building. Telephone Main 1472. Subscriptions and advertisements taken. Visitors will find copies of the Times on file, and are welcome to call and read them.

Our sale has been a success from the start, because the reductions are genuine. Going out of the jewelry business, to continue as opticians only, and prices temptingly low. John von Bretton, 350 S. Broadway.

New Market, 52-54 S. Broadway, open today. See our special sale advertisement today on Page 7, Part II. Great special sale Saturday of 200 choice milk lambs. See ad that day for prices.

Save money today by buying Harrison's high-grade house paints—several colors, regular price \$2.50 per gallon, now \$1.50. P. H. Matthews Paint House, 260 S. Los Angeles st.

Popular prices on pretty pictures. We are retiring from the jewelry business, must close out stock. The McClellan-Kanast Co., 111 Winston st., below Main between Fourth and Fifth.

Save money on enamel—for renewing iron beds—1/4 pint, regular price 20c, now 10c. P. H. Matthews Paint House, 260 S. Los Angeles st.

Ladies can make their garments perfect. Rosenbleit's College, 1400 W. 7th. Floor and furniture stain half price. U. R. Bowers & Sons, 945 S. Main.

Parr. D. Bonnet, furrier, 513 S. Broadway. Dr. Logan, oculist, 427 S. Broadway.

#### Day of the Rug.

The rise and growth of the rug habit is one of the interesting developments of domestic economy. Like the newly established country newspaper, the rug has a long-felt want; consequently, also like the rural journal, it has come to stay.

The rug habit in Chicago had a small beginning as long as twenty years ago, but it was not until about the period of the world's fair that it assumed the proportions of true fashion. When flat builders began to equip apartments with hardwood floors the carpet of custom and tradition began to disappear. When house owners followed the example and replaced pine flooring with those of the quarter-sawn oak the rug habit became practically universal and the carpet was relegated to hotel bedrooms and to those few private dwellings whose old-fashioned occupants declined to accept the new dispensation. Today a full floor carpet is rarely seen in a Chicago home, and almost never in a Chicago flat. The rug is master of the situation. [Chicago Chronicle.]

## CEYLON DEVIL BIRD.

### Mysterious Feathered Thing Whose Cry Resembles That of Person in Distress.

Most people who have visited the island of Ceylon and penetrated into its jungle fastnesses have heard the cry of the devil bird. This awe-inspiring sound resembles nothing so much as the scream of a human being undergoing the most terrible torture. Naturalists have identified it with the sylvan indri, a brown wood owl found in Hindoostan. But the devil bird, or "ulama," as the Cingalese call it, is an elusive creature and no one has had the good fortune to kill or catch a specimen.

The Cingalese, naturally a superstitious race, regard the cry of this bird with the utmost horror; they believe that its scream heard at night presages the most dire misfortune and they are in the habit of offering sacrifices to avert the approaching disaster. The superstition is probably of very great antiquity, but Robert Knox, who was a prisoner in Ceylon for twenty years about the middle of the seventeenth century, gives an interesting account of it, although in common with the natives he believed the cry proceeded from the devil himself. "This I can confirm," he writes, "that oftentimes the devil doth cry with audible voice, in the night, 'tis very shrill, almost like the barking of a dog. This I have often heard myself. Only this observation I make, that the devil doth make this cry, and I made it also, that either just before or very suddenly after this voice always the king cuts off people. To believe that this is the voice of the devil these reasons urge: Because there is no creature known to the inhabitants which cries like it and because it will on a sudden depart from one place and make a noise in another quicker than any can fly and because the very dogs will tremble and shake when they hear it, and 'tis so accounted by all the people."

A modern account, however, is given by Mr. Mitford of the Ceylon civil service, who affirmed that he had often heard the cry while at Kuruwagala, where the bird haunted the rocky hill behind the government house. He had evidently studied the mysterious bird with great interest. "This ordinary note," he writes, "is a magnificent 'about like that of a human being, which can be heard at great distance and has a fine effect in the silence of the closing night. But the sounds which have earned for it its bad name and which have heard but once to perfection are indescribable, the most appalling that can be imagined and which I have heard without shuddering. I can only compare it to a boy in torture whose screams are being stopped by being strangled."

#### A Slight Mistake.

An ignorant fellow who was about to get married resolved to make himself perfect in the responses of the marriage service, but by mistake he learned the office of baptism for those who are years, so when the clergyman asked him in church: "Wilt thou have this woman to be thy wedded wife?" the bridegroom answered in a solemn tone: "I renounce them all." The astonished minister said, "I think you are a fool," to which he replied, "All this I steadfastly believe." [Birmingham (England) Post.]

#### A Hopeful Outcome.

William Allen White says that the most amusing "personal" note that ever came across in a country newspaper was that which last year caught his eye while reading a Wisconsin paper. The item was something like this: "Niels Anderson met with a painful accident last week, a fish-hook becoming entangled in his eye. Niels is being attended by Dr. Phil Morton, who says his eye will come out all right." [Harper's Weekly.]

## VITAL RECORD—BIRTHS, DEATHS, MARRIAGES.

**Deaths.**  
BUTTERFIELD. At his late residence, No. 20 Bond street, Bradley Butterfield, aged 79 years; father of Edwin A. Butterfield, brother of Mrs. L. E. Marquardt of Chicago. Funeral services at 2 p.m. today, at the home of Mrs. L. E. Marquardt, 20 Bond street.

of parts of the city, caught fire at 2 o'clock this afternoon and before one-half the patients could be removed, the building was a sheet of flames, and the unfortunate were buried in a tomb of fire. The building is old and of timber, and it took less than fifteen minutes for this structure to collapse.

Hotel Franklin, a block away from this building, was blown up with dynamite to try to stop the ravages of the flames, but to little purpose. The Hotel Parrott Building, in which were located the chambers of the State Supreme Court, the lower floors being devoted to an immense department store, was raised, though its massive walls were not destroyed.

A little further down Market street, the Academy of Music, the Hotel Parrott Building and the History Building burned like so much tinder. Sparks carried across the wide streets ignited the Fulton Building and the army headquarters of the Department of California were burned.

#### SURFACE ROCKS SLIPPING.

##### CAUSE OF THE QUAKES.

WASHINGTON, April 18.—The possible relation of the earthquake in San Francisco to the eruption of Vesuvius formed the subject of discussion among scientists in this city yesterday. None of them was willing to advance an argument which would tend to connect one with the other. The officials of the Geological Survey declared that there was no relationship whatever between the two disturbances.

PROF. C. H. HAYES, professor of geology of the Geological Survey, said:

"The San Francisco disturbances are due to the slipping of the surface rocks to adjust themselves to changed positions inside the earth. They are not related to the eruption of Vesuvius. The interior of the earth is in a molten state, except in the region of the volcanoes, where it is solid. If you go down a distance of fifty or seventy miles the rocks are practically in a fluid state from the immense pressure on top of them. They act like a liquid and flow to adjust themselves to the changed conditions. But when you come nearer the surface, where the strata is hard and brittle, the slipping of the surface rocks along the line will give rise to the condition that attended the attack in San Francisco. The old earth, take it as a whole, is a very uneasy body, and is in a state of constantly changing equilibrium. When the foundations slip, there has to be an adjustment of the surface like the breaking up of a on a river and a readjustment of blocks to other. This is the reason why we have just had the Pacific Coast."

#### CHICAGO MASSING SUPPLIES.

CHICAGO, April 18.—Supplies will be sent to the Pacific Coast as rapidly as possible. A committee is being organized. Immediately after the official appointment of the committee, a meeting will be held to arrange for the formation of a train bearing relief to the stricken city will be made. Beside the official action to be taken by the city, a mass meeting of citizens will be held tomorrow for the purpose of forming measures of relief. The Chicago Clearinghouse Association telegraphed the Clearinghouse Association of San Francisco today expressing the deepest sympathy and offering assistance in any manner in which it may be desirable.

#### EARTHQUAKE ZONE IS ALL COAST.

##### DISASTERS ON PACIFIC SEABOARD ARE FREQUENT.

Well-Known Geologist Points to Disasters in Mexico and South America as Proof of His Theory that Seismic Danger Extends from Alaska to Chile.

NEW YORK, April 18.—[Exclusive Dispatch.] Robert T. Hill, a well-known geologist who is familiar with conditions on the Pacific Coast on account of extensive investigations which he made there, called attention to a fact that San Francisco is situated in an earthquake zone.

"From Alaska to the southern extremity of South America," said he, "along the Pacific Coast there is a region where earthquakes are relatively frequent. They have occurred many times before in California and in the Pacific provinces of Mexico, as well as Chile and Peru."

"Even in Panama, where the conditions are supposed to be comparatively recent, there has been despite a regular impression to the contrary, any dangerous disturbances."

"The canal zone has been visited by earthquakes to such an extent that, in the opinion of many, constitute a serious menace to the lock-level of an of constructing a canal."

"The more recent of the disturbances along the Pacific Coast have extended outside the territory of the United States and have therefore not attracted much attention."

"Twelve years ago, an earthquake here intense even than that which shook San Francisco today, followed a base of the Sierra Mountains of both Mexico, changing the water courses and destroying the principal cities of that thinly-populated country."

TWO REMOTE FOR NOTICE.

"In the year 1800, the city of Chillicothe, the capital of the province of Guayana, was nearly destroyed by an earthquake, of unusual intensity, and, however, to the remoteness of a place, little notice was taken of a occurrence."

Prof. Hill referred to numerous activities, among them Chamberlain of Chile, to demonstrate that the eastern coast had always been more subject to seismic disturbances. He spoke of the fact that the area of the Pacific, which plunges deeply into the water, are more or less liable to convulsions of nature.

"What the connection is between earthquakes and volcanic action," he stated, "is a question which has not been answered. Personally, I think that such a relation between the two of today and such a volcanic outbreak as that of Vesuvius, but are not enough facts at hand, as our present knowledge of these phenomena goes, to enable us to prove anything."

"Earthquakes and volcanic eruptions are not always observed together, and, indeed, severe earthquakes may occur about any evidence of volcanic action. The fact may solve this story so far as we know comparatively little about the actual conditions which accompany such a disturbance as that of Vesuvius."

STILL UNEXPLAINED.

It is a prevalent and common theory along this zone of which we have been there are great movements and quakes of the rock, which sometimes,

suddenly accelerated, give rise to noticeable earthquakes; but even though the earthquakes be immediately due to such movements, there is something which is still unexplained. They are supposed to be due to the contraction of the cooling earth crust and changes in the matter in the interior of the earth.

Until rather recently, it was the tendency of geologists to attribute volcanic phenomena to exterior conditions of the crust of the earth, but of late attention has been given to the renewed study of the conditions."

After speaking of the various theories with regard to eruptions, Prof. Hill referred to his monograph on the Mont Pelée disaster, in which he was quoted as saying that the eruption of 1851 was preceded by a great earthquake in Chile, nearly two thousand miles away.

"While admitting," he said, "that volcanic protrusions naturally may follow preexisting lines of weakness, such as faults and fissures, the fissuring also usually follows the volcano."

"Instances are even found in the San Francisco and Mount Taylor regions of volcanoes far distant from oceanic waters without a trace of pre-existing fissures, whereas the magma has forced itself up through thousands of feet of sedimentaries."

#### AMONG EXPECTED THINGS.

Prof. J. F. Kemp of the chair of geology of Columbia University said tonight that the earthquake in San Francisco was not to be reckoned as among the unexpected things. "San Francisco," he said, "is on a marked ridge of rock which is of comparatively recent origin. It is partly volcanic and partly of metamorphosed rocks. Extinct volcanoes exist in that region, as for instance, across the bay, at Berkeley. That this long ridge is of recent origin is shown by the fact that it dips steeply into the sea and that back in the interior may be seen the old beaches, some of which are even on the tops of mountains. When the formation is of recent origin there is likely to be movements of the earth crust, especially in volcanic regions."

"In a part of the country where earthquakes are of frequent occurrence such a disaster as that of today might have been expected. It was due to a movement of greater violence than usual."

"Light on the mystery which beclouds these crust movements is also given by Prof. Hill in his exposition of the theories of Arrhenus, who believed the interior of the earth was composed of a great magma, or of a gaseous state, from out of which the solid crust of the earth was formed through condensation and solidification."

"In view of the facts presented," said Prof. Hill, "may we not at least inquire if the magma theory is not worthy of more consideration than it has received?"

"Could we imagine a crust to form about the great furnaces of the sun as it has formed about the earth, that crust would be composed of the substances which we call igneous rock, and should that crust be surrounded by a gaseous or molten state, it would be a product of elements like those now existing in the earth as intensely heated gases."

#### WARSHIPS ON WAY TO SCENE.

##### PACIFIC FLEET DIVIDED TO RENDER ASSISTANCE.

Wireless Station at San Diego Gets Into Communication With Admiral Goodrich, Who Detaches the Marblehead—Troops in San Francisco Doing All Possible to Aid.

[BY THE ASSOCIATED PRESS.—P.M.] SAN DIEGO, April 18.—The De Forest wireless station here got into communication with Admiral Goodrich, on board the flagship Chicago, en route to Long Beach with the Pacific fleet, at 8:45 a. m. today and gave him the news of the great catastrophe in San Francisco.

At noon, a reply message was received from the Admiral, to be transmitted to the cruiser Marblehead, ordering her to sail at once, with all dispatch, direct for San Francisco. It was added that the Chicago herself would go on to San Francisco without pausing at Long Beach, however, going on to Long Beach, according to the previous programme.

The Marblehead sailed almost instantly on receipt of the order. The Saturn went out with her, but will probably not be with her long, as the cruiser will push ahead with all speed. The Collier, besides being a slower ship, is weighted by a large cargo of coal.

#### ARMY DOING ALL POSSIBLE.

[BY THE ASSOCIATED PRESS.—P.M.] WASHINGTON, April 18.—The War Department early this morning received the following second dispatch from Gen. Funston, at Oakland Pier: "We are doing all possible to aid residents of San Francisco in the present terrible calamity. Many thousands homeless, and I shall do everything in my power to render assistance and aid to the victims of the disaster."

A dispatch received early this morning from the depot commissary, Trautloff, is as follows: "Depot destroyed by fire; everything lost. Local troops supplied. Will wire in reference to Manila shipments."

"PUNSTON." This dispatch comes from the Secretary of War has directed the commissary at Vancouver Barracks to forward to the depot commissary at San Francisco 200,000 rations. Is the railroad open to Portland?"

#### FELT IN MARYLAND.

SEISMOGRAPHS DISTURBED. [BY THE ASSOCIATED PRESS.—P.M.] WASHINGTON, April 18.—[Exclusive Dispatch.] Seismographic machines of the Weather Bureau and the observatory of the Coast and Geodetic Survey at Cheltenham, Md., showed distinctly the earthquake tremors due to the great phenomena in San Francisco.

The Weather Bureau announced that the total ground movement record was four-tenths of an inch before the style of the seismograph recorded such a variation that it left the six-inch paper provided for its course.

Experts point out, however, that such an actual movement of the ground here would have been felt by individuals and that the comparatively little movement was not so great as indicated.

Never before have the machines at the Cheltenham observatory shown such a disturbance.

Otto H. Tittman, superintendent of the Coast and Geodetic Survey, at noon today, issued a report to Secretary Metcalf of the Department of Commerce and Labor.

## CHICAGO FEARS FOR CITIZENS.

### Prominent People Had Gone to Pacific Coast.

San Francisco Business Men Greatly Excited.

### Hundreds of the Anxious Strive for News.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, April 18.—[Exclusive Dispatch.] Hundreds of anxious people in Chicago strove, yesterday, to get news concerning relatives who are believed to have been within the earthquake circle at San Francisco. San Francisco business men stopping in the city were also unable to learn whether their families were safe. Theatrical people were greatly concerned for the welfare of the grand opera singers billed for the Coast city this week. Caruso, it was reported, appeared last night in Carmen. No word has been received from any of them.

ON BOARD OF TRADE. On the Board of Trade little knots of men talked over the situation, recalling friends whose wives, daughters, or other relatives are visiting in San Francisco, and were in danger of death. Not in years has the board been so much agitated as by this shock.

PUBLISHER HOWARD'S ANXIETY. Chief among those torn by anxiety was R. Frank Howard, publisher of the Daily Trade Bulletin, whose daughters, Misses Anna and Grace Howard, are believed to have reached San Francisco.

MRS. CHARLES COUNSELLMAN. Mrs. Charles Counsellman, widow of the late Board of Trade member, and her daughter, are in San Francisco. It was recalled by the board members, and probably stopped at the Palace Hotel.

THE BOOTHES. Mrs. William S. Booth, wife of one of the most prominent men on the board in Chicago, and Frank and Albert Booth, his brothers, are in San Francisco. Friends of Booth expressed fear that the three shared in the earthquake disaster. They live in the western addition.

RICHARD FRANK. Richard Frank, is another board member who hopes yet fears to hear details of the quake. His mother, he said, is now stopping at the St. Francis Hotel, in San Francisco, and no information has been received as to herself as yet.

OTHERS FEARED FOR. Among others for whom anxiety is felt are Mrs. Robert Weston, Mrs. Ernest Hall of Evanston and her son's wife, Mrs. Milton Hall, wife of a well-known Chicago physician. The trio, who had been in Southern California for some months, are believed to be in San Francisco this week.

SAN FRANCISCO EXCITED. At nearly all of the prominent Chicago hotels are Californians, many of them residents of San Francisco, and they were of the throng that made some money at places likely to receive early and accurate information.

R. A. REDMOND'S GRIEF. Robert A. Redmond of San Francisco had just registered at the Auditorium Hotel when informed of the disaster. He nearly collapsed.

"Oh, my God, my wife and babies," he shouted. A moment later, he had rushed from the hotel, his grips in his hand, and entered a cab. He is supposed to be on his way back to San Francisco.

PAYMASTER COLBY'S SON. Capt. H. C. Colby, U.S.N., a paymaster stationed at San Francisco, reached Chicago today. His son, H. C. Colby, with his wife and children live at No. 2728 Pierce avenue, four blocks west of the business district.

#### LATE SUMMARY.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, April 18.—[Exclusive Dispatch.] The buildings occupied by the Post and the Bulletin are threatened with fire and may be consumed. This will leave the city without a single daily newspaper.

The Emporium is a mass of ruins, with nothing but walls of this magnificent store standing. The buildings adjoining it are doomed to destruction.

Buildings in the vicinity of the United States Mint and Postoffice were blown up in the hope that they would be saved. Both are in grave danger, and, while withstanding the shock of the earthquake, will probably fall victims of the uncontrollable conflagration raging in that vicinity.

The Valencia boarding house on Mission street collapsed as a result of the earthquake and many roomers were buried in its ruins. Four dead were seen in the room. How many more suffered a similar fate is not known. Rescuers are at work in an attempt to save the lives of those who may still be living.

San Francisco's best playhouses, including the Majestic, the Columbia and the Grand Opera house are mass of ruins. The earthquake demolished them for all practical purposes and fire will complete the work of demolition. The Rialto and the Crossley buildings were burned to the ground, as was every building in the vicinity.

The Terminus Hotel, at the foot of Market street, fell this morning and buried twenty persons under its debris. These were incinerated and there is no possibility of learning their identity.

Lieut. Charles C. Pulla, Twenty-fourth Light Artillery, placed a charge of dynamite in the building, lit the fuse and ran for safety. The charge failed to go and Pulla was left in the trouble. An explosion occurred and Pulla was blown to atoms.

From the present appearance of the institutions who were up, they were crushed under walls which, when the heavy shock came, fell inward, carrying the floors down and dropping the roof on top of the ruined buildings.

Fortunately there was no fire in the building, the heating furnaces and engine-rooms being in another small structure.

Some of the few patients who escaped turned to help those buried in the ruins. Insane though they are, they worked like heroes. Others fled from the scene and what became of them is not known.

One wing of the hospital remained practically intact and from this the patients who could be trusted were taken and placed to work rescuing the unfortunate buried under the wrecked part of the buildings. It was this relief party which took out so many bodies.

The question of disposing of the dead and of housing the insane patients who escaped serious injury is a serious one, but until all bodies are taken out the remaining patients will be kept in the vicinity of the hospital.

[This report was received at Salinas over long-distance telephone from a small station south of San Jose. It has not been fully confirmed.—ED.]

BIG LOSS AT SANTA CRUZ. [BY DIRECT WIRE TO THE TIMES.] SALINAS, April 18.—[Exclusive Dispatch.] A message from Del Monte tonight says that a man has just arrived there from Santa Cruz, having crossed the bay in a small boat. According to his statements, Santa Cruz suffered enormous property loss and some loss of life, but the number killed is not known. It will not exceed a dozen at most, the messenger says, and may not be that many.

SHOCKS FELT IN OREGON. PORTLAND (Or.) April 18.—Roseburg, Grant's Pass, Marshfield and Ashland reported slight shocks this morning.

## SAN JOSE STRICKEN BY WRECK AND FLAME.

### Fifteen Large Buildings Fall and Are Consumed—One Hundred and Fifty Persons Believed to Have Been Killed—Many Bodies Burned.

[BY DIRECT WIRE TO THE TIMES.]

SALINAS, April 18.—Reports from points north of here which have telephone connection with San Jose are to the effect that the metropolis of the Santa Clara Valley, San Jose, is a mass of ruins, and that not a building in the city escaped injury. The number of persons killed is placed at 150, and it is stated that this estimate may be too low.

Fifteen large buildings are entirely down, and what was left of them after the earthquake was destroyed by fire. A number of bodies were burned in the ruins.

Hotel Vendome is a wreck, twenty people being killed in the collapse.

The courthouse was so badly damaged that a large portion of it will have to be rebuilt.

The Mayor has called out the National Guard company, and 500 citizens have been sworn in as special officers.

The Dougherty block was completely burned, and one woman was killed.

Dr. De Crow was killed and his wife badly injured. Every business building is demolished. Martial law prevails with 500 deputized men.

The postoffice was half wrecked. The First Presbyterian Church demolished and the courthouse wrecked.

## SAN DIEGO SHAKEN.

### Border Town Experiences Heaviest Earthquake Shock in Fifteen Years but No Damage Is Done—Jar Is Plainly Felt at Santa Ana.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO HEAVILY SHOCKED. SAN DIEGO, April 18.—[Exclusive Dispatch.] The shock here this afternoon at 4:30 o'clock was the heaviest in fifteen years. The direction was from the northeast to the southwest. No damage was done.

"The shock coming from the northeast to the southwest," says Observer Carpenter of the weather bureau station, "is the usual direction, as the records for fifteen or sixteen quakes show that 75 per cent. have come from that direction."

The weather bureau station is in the tallest building in the city. The clock was not stopped but the pendulum was made to wobble.

National City, four miles south of here, reports three shocks, the first a heavy one followed by three lighter ones.

The shock penetrated to all sections of the country.

GUEST MISSING. SAN DIEGO, April 18.—[Exclusive Dispatch.] E. S. Babcock has been a guest at the Palace Hotel since Monday. He was to leave for San Diego last evening but it is believed he remained in the hotel all night.

Up to 9 o'clock this evening no word has been received from him but he is believed to be safe. He usually occupied rooms on the fourth floor on the Jessie Alley side which, according to the reports, would be favorable to his escape.

Dr. R. M. Powers of this city, most eminent grand commander of the grand commandery Knights Templar, State of California, was also a guest at the hotel.

SAN DIEGO TO RELIEVE. SAN DIEGO, April 18.—The awful disaster in San Francisco rendering thousands penniless, has caused a quick response from the people of San Diego. A monster benefit will be given at the Isis Theater next week, the proceeds to be devoted to the relief of the suffering of San Francisco. All the best talent in this city have volunteered their services and a liberal subscription is assured.

## HORROR AT ASYLUM; TWO HUNDRED PERISH.

### When Quake Came at Agnews the Walls of the Building Collapsed, Carrying Floor Down and Dropping Roof on Inmates.

[BY DIRECT WIRE TO THE TIMES.]

SALINAS, April 18.—[Exclusive Dispatch.] If the reports received here from the State Hospital for the insane at Agnews are even half true, that pretty little city, lying in the center of probably the most picturesque valley in the whole State, has been the scene of a tragedy in which the loss of life is as appalling as that at San Francisco.

The reports have not been confirmed and may be exaggerated, but the news which comes here from there is that more than 200 persons have been killed at the State Hospital, most of them being patients.

Among those reported dead are Superintendent Kelly, his son and daughter, and Mrs. Kelly is said to be fatally injured.

Up to 9 o'clock tonight 100 bodies had been taken from the ruins, and it is reported that there are more than 100 more still under the immense pile of brick and stone—all that is left of one of the finest public buildings in the State.

The unfortunate insane patients had no chance to escape. Locked in the various wards for the night, their keepers being the only persons about the institutions who were up, they were crushed under walls which, when the heavy shock came, fell inward, carrying the floors down and dropping the roof on top of the ruined buildings.

Fortunately there was no fire in the building, the heating furnaces and engine-rooms being in another small structure.

Some of the few patients who escaped turned to help those buried in the ruins. Insane though they are, they worked like heroes. Others fled from the scene and what became of them is not known.

One wing of the hospital remained practically intact and from this the patients who could be trusted were taken and placed to work rescuing the unfortunate buried under the wrecked part of the buildings. It was this relief party which took out so many bodies.

The question of disposing of the dead and of housing the insane patients who escaped serious injury is a serious one, but until all bodies are taken out the remaining patients will be kept in the vicinity of the hospital.

[This report was received at Salinas over long-distance telephone from a small station south of San Jose. It has not been fully confirmed.—ED.]

BIG LOSS AT SANTA CRUZ. [BY DIRECT WIRE TO THE TIMES.] SALINAS, April 18.—[Exclusive Dispatch.] A message from Del Monte tonight says that a man has just arrived there from Santa Cruz, having crossed the bay in a small boat. According to his statements, Santa Cruz suffered enormous property loss and some loss of life, but the number killed is not known. It will not exceed a dozen at most, the messenger says, and may not be that many.

## QUAKE WORKS HAVOC IN ADJACENT TOWNS.

### Destructive Effect of the Disturbance Felt in Hollister, Salinas, Wadswill, Monterey, Redwood City, Stanford and Santa Cruz.

SACRAMENTO, April 18.—A short time after the big shock came a message from Suisun, Solano county, saying that a long section of track had disappeared from view. It was learned later that, in one place between Sprig and Teal stations, in the Suisun marshes, for a distance of one mile and a half, the track had sunk down three to six feet, and at another point nearly one thousand feet of track went out.

Trains which were dispatched for San Francisco early this morning had to be brought back, and they went to the Bay City by the Lathrop route.

The track sunk by the earthquake is near the place where a loaded passenger train came near going out of sight. It is feared that it will take several weeks to repair the present collapse, and in the meantime, all trains will be sent by the Stockton route.

There are great cracks on each side of the track through the Suisun marshes, and it is reported that a great canal of water has flowed over the lands between Suisun and Benicia.

A short distance below Suisun, a Southern Pacific switch engine, carrying a load of lumber, was thrown into the ground for a distance of three feet, not far from where the tracks disappeared.

Reports received from the train dispatcher's office tell of minor earthquake damage at Suisun and Tracy.

SANTA ROSA FIRE SWEEP. [BY THE ASSOCIATED PRESS.—P.M.] OAKLAND, April 18.—The water system of Santa Rosa was destroyed by the earthquake and the place caught fire, the flames sweeping everything before them.

Ten thousand people are homeless and the loss of life probably will reach into the hundreds. Identification so far impossible.

The whole business portion of the county tumbled into ruins. Main street is piled on both sides many feet deep with fallen buildings. Not one business building is left intact.

The former four-story Courthouse is now a pile of broken masonry, nothing else left.

Citizens fled to the fields and hills to avoid destruction. The Times says that the earthquake was the heaviest in the history of the county.

BIG SAN JOSE MORTALITY. [BY DIRECT WIRE TO THE TIMES.] SALINAS, April 18.—[Exclusive Dispatch.] Later reports from San Jose place the number of dead at between 100 and 150. The information comes over a railroad wire to the nearest point with which connection by telephone remains, it being impossible to get telegrams either to or from San Jose.

The new Hall of Justice, just completed at a cost of \$200,000, St. Patrick's Church, the Presbyterian Church, the High School, and a portion of the State Normal are in ruins.

The Vendome Hotel annex collapsed with the first heavy shock, burying many guests in the ruins. Thomas O'Toole, a wealthy ranchman, was killed throughout the Santa Clara Valley, was taken from this building.

Dr. DeCrow, who slept in his office, was killed under the falling walls of the building. His body was taken out of the ruins this afternoon.

The bodies of eight Italians were taken from the ruins of a cheap lodging house near the railroad yards this afternoon. Many other bodies were found in the ruins. It is believed there are other bodies under the wreckage of the buildings. Employees are working tonight to reach some of those who were buried and who are believed to be still alive.

TEN MEN KILLED. [BY DIRECT WIRE TO THE TIMES.] SALINAS, April 18.—[Exclusive Dispatch.] Ten men were killed at Loma Prieta in Santa Cruz county, by a landslide caused by the earthquake. The men were at work in a mill which stood alongside a steep hill.

When the shock came an enormous section of the hill dropped bodily upon the mill, burying it and its every person in it. The names of the dead were not obtainable at Santa Cruz, but

the report of the disaster continued tonight from Salinas. The report was that the earthquake was the heaviest in the history of the county.

[BY DIRECT WIRE TO THE TIMES.] SALINAS, April 18.—[Exclusive Dispatch.] The report was that the earthquake was the heaviest in the history of the county.

[

THURSDAY MORNING. APRIL 19, 1906.

On All News Stands. } 5 CENTS  
Trains and Streets.

EXTRA NO. 2—NOON EDITION.

KILLED BY DYNAMITE IN BUILDINGS,  
WORST FEATURE OF AWFUL PANIC.

**Chinese Fleeing in Insane Terror—Wounded Left to Die in the Streets—Last of Great Buildings Toppling Over—Chronicle Building a Skeleton—People Dying of Thirst.**

**SAN FRANCISCO, April 19.**—(Exclusive Dispatch.) The evacuation of Chinatown commenced early this morning. Many Chinese are crazy from fright and are running wildly about. Others loaded down with belongings are making for Ocean Beach. Many have been killed and injured in trying to escape. The wounded are left lying in the streets, it being impossible for hospital corps to render aid. Many wounded will burn to death. Hundreds of Chinese reached the ferry in a roundabout way and are leaving for interior towns. Express wagons rent at \$50 an hour but when the soldiers catch teamsters charging this rate, the teams are confiscated.

## KILLED BY DYNAMITE.

**SAN FRANCISCO, Cal., April 19.**—(Exclusive Dispatch.) Fire Chief Sullivan will die, as a result of injuries received yesterday morning during earthquake. His wife is also seriously injured. Willie Britt was also badly injured.

There is no drinking water to be had except at Presidio and in a few private wells. It is being carted to Black Point, where a majority of the residents are.

In several instances buildings were dynamited that still had people inside. They were killed when the buildings collapsed.

Over 150,000 people were without homes last night. Many are suffering untold tortures from hunger and thirst. Thousands of special police have been sworn in by Schmitz, many of whom are crazy drunk and are driving people like cattle. Clubs were used promiscuously even on women.

# GREAT BUILDINGS GONE.

At 11 o'clock this morning dispatches from Oakland said the fire in San Francisco had not abated. The St. Francis Hotel and the Merchants Exchange buildings have both gone. The Fairmont Hotel will be the next to go.

**The Mark Hopkins Institute of Art, with all its treasures, has been destroyed.**

The Chronicle Building, the last of the great newspaper structures to hold out, is a skeleton.

**The great James Flood Building is now leaning and will soon topple over.**

Not the slightest headway is made in any effort to check the flames in any direction.

Besides the business district, half the residence section of the city has been wiped out of existence.

Word has been received at New York by the Western Union Telegraph Co. that the fire has spread to Nob Hill, one of the finest residence sections of San Francisco.

Two slight shocks of earthquake were felt at Claremont this morning.

**Vesuvius has begun operations again and ashes are falling on the small towns around the mountain.**

**"The Times" relief fund is growing. The Farmers & Merchants National Bank has subscribed \$5000 and J. A. Graves \$200.**

Schilling, the great San Francisco tea merchant, says he has lost every dollar he had in the world by earthquake and fire.

**Bulletin.** At 9 a.m. the fire is still raging. No possibility of checking flames. Whole city is doomed. The Secretary of Treasury has authorized \$10,000,000 transferred from the sub-treasury at New

Gen. Funston says 20,000 people are homeless.

**-Two small shocks at Washington, D. C., this morning.**

**Food is very scarce in San Francisco. Provision houses are all destroyed.**

Later reports say that the U. S. Mint in San Francisco has gone, with all its treasure.

**WORSE AT SAN JOSE.**

At San Jose the entire business portion is in ruins this morning, and loss of life is reported at 150 persons. The city is under martial law and streets are patrolled by troops. All the hospitals are crowded with dead and dying. The electric light plants are ruined and the city was in darkness last night. Both the Courthouse and Hall of Records have collapsed.

## SANTA ROSA'S HORROR.

The collapse of the Strose Hotel and Grand Hotel and two brick buildings used for lodging-houses at

Stephen A. ages, claim her against well known

**Santa Rosa buried many victims in the ruins. Thirty-eight bodies have been taken from the hotels and it is said at least one hundred are covered by the fallen walls. Great damage was done to buildings. The report generally circulated early this morning that the town of Tracy has been destroyed is false. Slight damage to buildings is the extent. No lives lost.**

**[BULLETIN NO. 1.]****WHOLE CITY IS DOOMED.**

**OAKLAND (Cal.) April 19, 9 a.m.**—The fire is still raging throughout San Francisco and there is no possibility of stopping it until it exhausts itself for want of material. The city is doomed. The authorities are still dynamiting buildings in the vain hope of checking the progress of the flames.

**[BULLETIN NO. 2.]****STOCK MARKET AFFECTED.**

**NEW YORK, April 19.**—The crowning dimensions of the San Francisco calamity brought heavy offerings of stocks upon the market and the opening prices today showed wide declines from last night. Stocks of companies with property on the coast were most acutely affected. United Railways investments fell 6, preferred 5 1-2; Wells Fargo Express 4, Pacific Mail 3 1-2, and Union Pacific 3 1-2. Smelting fell 3 3-8, Anaconda 2 3-4, Reading 1 5-8. Losses throughout the list ranged from a large fraction to a point.

**[BULLETIN NO. 3.]****WORKED LIKE HEROES.**

**CHICAGO, April 19.**—The Associated Press force at San Francisco is still on duty awaiting relief men. The Associated Press force at San Francisco which had done such remarkable work includes Paul Cowles, Superintendent; R. C. Johnson, E. E. Curtis, J. McCarroll, John Finlay and P. H. McDonald, editors; R. L. Creighton and R. J. Waters, stenographers, and R. E. Geistlich, B. F. McInerney, W. F. Lynch, J. K. Brown and Harry Collins, operators.

**[BULLETIN NO. 4.]****AID FROM UNCLE SAM AND EAST.**

**WASHINGTON, April 19.**—The Department of Commerce and Labor will lend all possible aid to the San Francisco sufferers. Secretary Metcalf has directed the lighthouse tender Madrono and the U.S.S. Albatross to go at once to the stricken city and do everything practicable to aid the sufferers.

**NEW YORK, April 19.**—The National Park Bank today transferred to San Francisco, through the sub-treasury, between \$3,000,000 and \$4,000,000 in gold.

M. Guggenheims Sons today notified Gen. Funston that they had contributed \$50,000 for the relief of the San Francisco sufferers.

## HALF MILLION BY THE U. S. SENATE.

**WASHINGTON, April 18.**—Soon after the Senate was called to order today Mr. Perkins introduced a joint resolution authorizing the Secretary of War to use rations and quartermaster-general's supplies for the relief of destitute persons in the region devastated by the earthquake and fire in California, and making an appropriation of \$500,000 to relieve the suffering.

Following is the text of the resolution: "Whereas, the most terrible disaster which has ever taken place on this continent has occurred in the State of California, in which one-half of the city of San Francisco has been practically destroyed by earthquake and fire, and many towns and cities along the coast have suffered from similar devastations, and

"Whereas, in all the afflicted localities there has been wrought much ruin as has resulted in great loss of life and the serious injury of thousands of people; and

"Whereas, the destruction of dwelling houses has rendered homeless 100,000 of the inhabitants of San Francisco alone, and

"Whereas, there is most urgent need to bury the dead, care for the injured and shelter and feed the homeless, and

"Whereas, the local administrations will for some time be unable to cope with the situation and extend such aid and assistance as is immediately necessary; therefore,

"BE IT RESOLVED, That the sum of \$500,000, or such part thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated, to be expended by and under the direction of the Secretary of War in the purchase and distribution of quartermaster and commissary stores to such and destitute persons as may require assistance in the district devastated by the earthquake and fire.

The Secretary of War is authorized to use the steamers and other boats and vessels belonging to or now employed by the government upon San Francisco Bay or adjacent waters in transportation and distribution of supplies furnished by the United States or individuals to such destitute people, and he may employ such other means of transportation as he may deem necessary to carry the purpose of this joint resolution into effect.

The reading of the journal was dispensed with in order to permit the earliest possible attention of the resolution. In offering it, Mr. Perkins asked for immediate consideration, and dispensing with the formality of reference to a committee. No objection was made, and the resolution was passed without comment.

**NAVY YARD ESCAPES.**  
**WASHINGTON, April 19.**—A telegram received at the Navy Department today from the commandant at Mare Island Navy Yard, sent since the earthquake, reports that \$1000 will cover the damage done there. No mention is made of any injuries to any of the people of the yard.

**WAR DEPARTMENT.**  
**WASHINGTON, April 19.**—Prompt action has been taken by the War Department extending to the earthquake sufferers of San Francisco.

**ON NOB HILL.**  
**NEW YORK, April 19.**—The Western Union received a report that early this morning the fire spread in the Nob Hill section of San Francisco. This is the section in which are located many fine residences, including the Crocker and Huntington homes.

**WASHINGTON DISTURBED.**  
**WASHINGTON, April 19.**—The Weather Bureau today issued the following bulletin: "Two small after shocks of the San Francisco earthquake were recorded on the seismograph at the Weather Bureau, Washington, D. C., during the night and this morning. The first shock was decidedly stronger than the other one, although both were very slight compared to the original disturbance. The principal portion, that is, the strong motion in the first shock occurred at 8:46 p.m., and in the second, shock about 2:03 a.m. The motion in the second shock was especially feeble and ill-defined." (Signed) WILLIS L. MOORE, Chief U. S. Weather Bureau.

**TRAIL OF THE FIRE DEMON.**

The burned district extends from the water front south of Market street to Howard street and west to Eleventh street. North of Market the fire extends on Hays and McAllister streets nearly to Fillmore and from the waterfront along Market to Montgomery and north from the waterfront to Montgomery street.

Manufactories, hotels, wholesale houses and residences, comprising the principal part of the business section, have been destroyed.

**"WHITE ELEPHANT" GONE.**

The City Hall, a structure costing \$7,000,000, was first wrecked by the earthquake, and then destroyed by fire.

**THE PALACE LOSS.**

The Palace Hotel, value estimated at \$3,000,000 also burned.

**SPRECKELS BUILDING.**

The beautiful Claus Spreckels building at Third and Market streets was destroyed.

The Rialto Building and dozens of other costly structures were also destroyed.

**HALL OF JUSTICE.**

The Hall of Justice is threatened, and will absolutely go. The Examiner and Call buildings are gone, and the Chronicle Building across the street from the Palace Hotel is on fire.

**COMMITTEE OF SAFETY.**

At a meeting of the Committee of Safety, today, Mayor Schmitz issued the following proclamation:

"To the Citizens of San Francisco: The Federal troops which are now policing a portion of the city, as well as the regular and special members of the police force, have been authorized by me to kill any persons whomsoever found engaged in looting the effects of any citizen or otherwise engaged in the commission of crime.

"Under these circumstances, I request that all citizens whose business does not imperatively require their absence from home after dark to remain at home during the night, until order shall have been restored. I beg to warn all citizens of the danger of fire on account of the defective or destroyed chimneys, gas pipes, gas fixtures and the like.

(Signed.) "E. E. SCHMITZ, Mayor."

Tonight, the firemen were as far as ever from checking the progress of the flames. In the northern section of the downtown business section the fire swept around the Hall of Justice and communicated to Chinatown, and then proceeded westward into the heart of that colony. It began rapidly eating its way northward on both sides of Kearney street, and at 7 p.m. was within a block of the California Hotel.

**NEWSPAPER WORK STOPS.**

This point is in the direct vicinity of the plant of the Bulletin, an evening publication, in which the three morning papers had agreed to issue jointly a four-sheet paper tomorrow, but that plan was abandoned.

**PALACE HOTEL'S FALL.**

About 6 o'clock tonight, the world-famous Palace Hotel fell a prey to the conflagration, and the Crocker building across the street began emitting smoke.

**ST. IGNATIUS DESTROYED.**

One of the big losses of the day was the destruction of St. Ignatius Church and College at Van Ness avenue and Hayes street. This was the greatest Jesuit institution in the West, and was built at a cost of a couple of a million of dollars.

**CONDITION AT 7 P. M.**

At 7 o'clock, the fire had swept from the south side of the town, across Market street into the district called the "Western Addition," and was burning at Golden Gate and Octavia avenue. This result was reached after almost the southern district from Ninth street to the eastern waterfront had been converted into a blackened waste.

In this section were hundreds of factories, wholesale houses and many business firms in addition to thousands of homes.

**SLOWER ON NORTH SIDE.**

On the North Side, tonight, the fire was not making such rapid progress as in the Western Addition, as there is a limited supply of water available, and the firemen are making desperate efforts to prevent the encroachment of the devastation.

**MAYOR IN A TENT.**

Temporary headquarters were established in tents in Portsmouth Square this evening for Mayor Schmitz, Chief of Police Dinan and Gen. Funston, but this site became too dangerous about 6 o'clock, and was abandoned. Later the flames swept the square.

**ST. MARY'S HOSPITAL BURNS.**

In the South Side district, on Rincon Hill, St. Mary's Hospital, a landmark, conducted by the Sisters of Mercy, was reduced to ashes.

**PUBLIC SQUARE OCCUPIED.**

Throughout the city, wherever there is a public square, a scene of desolation is presented. Tents have been pitched by the fortunate possessors of canvases, but the majority of homeless people are huddled in frightened groups about the household belongings they agreed to save from the general ruins.

**AT GOLDEN GATE PARK.**

From Golden Gate Park comes news of the total destruction of the immense building covering a portion of the Chinese playground. The walls are shattered beyond repair, and the roof has fallen in. The pillars of the new stone gate at the Park entrance are twisted and torn from their foundations. Some of them, weighing nearly four tons each, were shifted a though they were constructed of staff.

**DEWEY MONUMENT SHIFTS.**

In Union Square Park, where a number of the homeless are now

**WASHINGTON, April 19.**—Secretary Taft last night directed another message to be sent immediately to Gen. Funston, urging him to advise the War Department of the conditions at San Francisco as soon as possible and to do everything in his power to let the public at large know of the actual state of affairs in the stricken city.

The War Department was advised that an officer who has an automobile had consented to make an attempt to reach Gen. Funston at once and carry the dispatches which have accumulated at Oakland and could not be sent because of lack of ferry accommodations, at 11 o'clock last night.

being given temporary shelter, the mighty Dewey monument has been shifted from its base. It is now leaning at an angle of 10 degrees, and there is danger of the immense stone structure falling.

**FERRYBOATS RUNNING.**

This afternoon, the ferryboats resumed running from Oakland, and tonight thousands of homeless and panic-stricken people are leaving the city, and are seeking shelter in Oakland and other suburban towns.

**FOREIGNERS SUFFER.**

The suffering and hardship beggars description. Countless numbers of residents of the poorer section of the city, including the Chinese, Japanese and Italian quarters, have been rendered homeless, and unless supplies and aid reach the city within twenty-four hours, starvation will add to the awful calamity.

**OLD LANDMARKS DISAPPEAR.**

Nearly every landmark that has made San Francisco famous over the whole world has been laid in ruins or burned to the ground in the dire catastrophe. Never has the fate of a city been more disastrous.

**NOTABLE BUILDINGS DESTROYED.**

Among the notable buildings destroyed were the Grand Opera-house on Mission street, where the Conried Opera Company opened its season Monday night. The members of the troupe are now at the St. Francis Hotel, one of the few big hotels that are still standing.

The Majestic Theater at Market and Eighth streets was burned. The Columbia was wrecked by the earthquake and the Central razed by the flames.

The \$1,000,000 Fairmount Hotel is still standing and suffered little damage.

The Odd Fellows' Temple, the St. Nicholas Hotel and the Call and the Examiner and the Parrott Buildings are gone.

A big cave-in completed the earthquake which shook the city.

**FACTORIES DEMOLISHED.**

Nearly every big factory building has been wiped out of existence, and a complete enumeration of them looks like a copy of the city directory.

Many of the finest buildings in the city were leveled to the dust by terrific charges of dynamite in the hopeless effort to stay the horror of fire.

In this work many heroic soldiers, policemen and firemen were maimed, or killed outright.

**WATER FRONT SWEPT CLEAN.**

For three miles along the water front, buildings have been swept clean, and tonight the blackened beams and great skeletons of factories and offices stand silhouetted against a background of flame that is slowly spreading over the entire city.

**COMMERCIAL DISTRICT PASSES.**

The whole commercial and office section of the city on the north side of Market street from the Ferry building to Tenth street has been consumed in the flames, while hardly a building is standing in the district south of Market street.

**UP MONTGOMERY STREET.**

At 2 o'clock, despite the heroic work of the firemen and the troops of dynamiters, who razed building after building and blew up property valued at millions, the flames spread across Market street to the north side and swept up Montgomery street, practically to Washington street.

**NEW EXCHANGES STAND.**

Along Montgomery street are some of the richest banks and commercial houses in San Francisco. The famous Mills Building and the new Merchants' Exchange, in which is situated the Marine and Stock Exchanges are still standing, but the Mutual Life Insurance Building and scores of banks and office buildings are on fire, while blocks of other houses are in the path of the flames, and nothing seems to be at hand to stay their progress. Block after block of business houses are red-hot masses of ruin, and it will be months before the money that was housed in their vaults can be reached.

**STOCKTON'S AID.**

**STOCKTON (Cal.) April 18.**—Falling to reach San Francisco authorities by wire, Mayor Gardner of Stockton left for San Francisco this morning to personally offer Stockton's aid. A meeting of the Stockton Chamber of Commerce had been called for 1:30 p.m. to take steps toward relieving the distress in the stricken city. Little or no damage done here.

**LUCKY FRESNO.**

**FRESNO (Cal.) April 18.**—The earthquake did no damage in Fresno, although it was the heaviest shock ever felt here. At Los Banos, on the border line of the county, heavy damage was done. Several brick buildings were wrecked, including the Los Banos Hotel, a three-story building, the Miller & Lux store, two-story, and the Los Banos Bank, two-story. The loss is \$75,000. No fatalities.

**ST. LOUIS SYMPATHY.**

**ST. PAUL, April 19.**—Mayor Smith has sent a telegram to Mayor Schmitz of San Francisco, extending the sympathy of the city of St. Paul and offering any aid that may be needed.

**NEBRASKA'S CALL.**

**LINCOLN, NEB., April 19.**—Governor Mickey today issued a call to the people of Nebraska to contribute to a fund for the benefit of the sufferers in San Francisco.

**[BULLETIN NO. 5.]****THE GOVERNOR HOPEFUL.**

**OAKLAND (Cal.) April 18.**—[Exclusive Dispatch.] Gov. Pardee has issued the following statement: "The appalling calamity which has befallen the metropolis of the State and its neighboring cities, leaves one without words to express one's feelings. No one yet fully grasps what has happened, although it is to be hoped that the stories concerning the loss of life are greatly exaggerated.

The loss of property from the earth-quake, of course, though small in comparison with that resulting from the following conflagration, would have been serious enough to have aroused the attention of the whole world.

"It has been a source of pleasure among all the harrowing thoughts of this day of terrors, to have received from the Governors of a dozen or more States, messages of sympathy for our

## NEW YORK INTEREST

Fire Insurance  
Deep Concern

Important Problem  
tion to Home

Form of Policy Material  
Present Issues

(BY DIRECT WIRE TO THE  
NEW YORK, April 19.—[Exclusive  
Dispatch.] Fire insurance in the  
city were deeply interested in the  
San Francisco disaster, as a  
standpoint, as well as from sym-  
pathy for the victims. As an insur-  
ance expert, the status of the fire in  
California metropolis cannot be  
mined until complete reports are  
received.

Whether the fire insurance com-  
panies are to be heavily taxed, or  
escape almost all loss, will be  
directly upon how the Government  
in San Francisco following the  
quakes prove to have been  
affected.

If any building fell before  
fire, the companies carrying  
not responsible for the loss.  
building, the companies are  
the loss on the insur-  
ture, if insured.

The large companies  
their western offices, and  
New York office, and the  
are not posted, as a rule,  
anxious to know the  
as to the character of the  
used in that city.

**THE HOME COMPANY.**  
The Home Company, which  
in New York, transacts its  
California through its San  
office, and it was stated  
yesterday, that the only  
policy it took in the  
the standard form of  
This entirely ignores the  
quakes, or falling of  
any cause, or the fall of  
fire resulting in the fall of  
building shall not be  
of the causes of destruc-  
under the policy, making  
liable for loss.

**FIREMEN'S FINE.**  
In a statement of fire  
men done in San Francisco  
appears that for some  
the largest individual  
ance in that city, and the  
Francisco company doing  
business, the company  
is only third in the list of  
ance companies, some  
amount of premiums  
year.

The Fireman's Fund, which  
the largest amount of  
the whole, is a company  
representing the largest  
business done in the  
of the American com-  
panies doing the  
dividual business, will  
though this total loss of  
ceeds that of the firemen.

**SLIDE POSSIBLE.**  
According to Prof. C. D.  
key of the Department of  
Columbia University, the  
struments for recording  
turbances are at Albany.  
There is a possibility  
between the San Francisco  
and the recent eruption of  
St. Helens, which has  
caused the strata to slide  
the earth's crust in con-  
sequence of the volcanic  
eruptions are  
collection of water from  
under the earth's sur-  
face, which caused the  
steam that caused the  
According to the theory  
accepted by geologists,  
slides are caused by  
from water percolating  
but from contact of the  
with underground  
These volcanoes are  
earth."

**BOSTON SENDS.**  
BY DIRECT WIRE TO  
BOSTON, April 19.—[Ex-  
clusive Dispatch.] Boston  
for immediate relief.

**TIDINGS TO NEW YORK.**  
BY THE ASSOCIATED  
NEW YORK, April 19.—[Ex-  
clusive Dispatch.] A  
tag message from the  
received by the  
graph company at 2:30  
time.

"We are having a  
shocks. A heavy rain  
sprung up within the  
the city, bounded by  
and Sansome and  
the corner of Third  
has just been  
California Bank  
building, which  
has been more  
earthquake."

**TON OF DYNAMITE.**  
The Southern  
play the dynamite  
into the vicinity of  
on Market street, to  
his fire, and the  
the spread of the  
WESTERN UNION  
the operator  
ing adjoining  
The above  
from the main  
Union in San  
company was  
communication  
building. After  
headquarters  
fact funds for  
operators would  
would have to  
building.

**REFUGEES TO OAKLAND.**  
OAKLAND, April 19.—On  
thousands of refugees from  
San Francisco have come to this city,  
the Realty Syndicate offered Idora Park  
for the use of the sufferers from the  
earthquake. This has been gratefully  
accepted by the police and fire com-  
missioners, and two hundred sets have  
been placed in the theater for the use  
of the refugees.

Relief stations have also been estab-  
lished at the City Hall and at the va-  
rious public parks throughout the city.  
Other relief stations have also been  
established in such of the churches  
throughout the city as are considered  
safe for use as such.

**FLAMES JUMP THROUGH GAPS.**  
But through the gaps made the  
flames jumped, and although the fail-  
ures of the heroic efforts of the police,  
firemen and soldiers were at times  
slovenly, the work was continued  
with a desperation that will live as  
one of the features of the terrible dis-  
aster.

# EXTRA NO. 2—NOON EDITION. KILLED BY DYNAMITE IN BUILDINGS, WORST FEATURE OF AWFUL PANIC.

## Chinese Fleeing in Insane Terror—Wounded Left to Die in the Streets—Last of Great Buildings Toppling Over—Chronicle Building a Skeleton—People Dying of Thirst.

**SAN FRANCISCO, April 19.—(Exclusive Dispatch.)** The evacuation of Chinatown commenced early this morning. Many Chinese are crazy from fright and are running wildly about. Others loaded down with belongings are making for Ocean Beach. Many have been killed and injured in trying to escape. The wounded are left lying in the streets, it being impossible for hospital corps to render aid. Many wounded will burn to death. Hundreds of Chinese reached the ferry in a roundabout way and are leaving for interior towns. Express wagons rent at \$50 an hour but when the soldiers catch teamsters charging this rate, the teams are confiscated.

### KILLED BY DYNAMITE.

**SAN FRANCISCO, Cal., April 19.—(Exclusive Dispatch.)** Fire Chief Sullivan will die, as a result of injuries received yesterday morning during earthquake. His wife is also seriously injured. Willie Britt was also badly injured.

There is no drinking water to be had except at Presidio and in a few private wells. It is being carted to Black Point, where a majority of the residents are.

In several instances buildings were dynamited that still had people inside. They were killed when the buildings collapsed.

Over 150,000 people were without homes last night. Many are suffering untold tortures from hunger and thirst. Thousands of special police have been sworn in by Schmitz, many of whom are crazy drunk and are driving people like cattle. Clubs were used promiscuously even on women.

### GREAT BUILDINGS GONE.

At 11 o'clock this morning dispatches from Oakland said the fire in San Francisco had not abated. The St. Francis Hotel and the Merchants Exchange buildings have both gone. The Fairmont Hotel will be the next to go.

The Mark Hopkins Institute of Art, with all its treasures, has been destroyed. The Chronicle Building, the last of the great newspaper structures to hold out, is a skeleton. The great James Flood Building is now leaning and will soon topple over. Not the slightest headway is made in any effort to check the flames in any direction. Besides the business district, half the residence section of the city has been wiped out of existence.

Word has been received at New York by the Western Union Telegraph Co. that the fire has spread to Nob Hill, one of the finest residence sections of San Francisco.

Two slight shocks of earthquake were felt at Claremont this morning. Vesuvius has begun operations again and ashes are falling on the small towns around the mountain. "The Times" relief fund is growing. The Farmers & Merchants National Bank has subscribed \$5000 and J. A. Graves \$200.

Schilling, the great San Francisco tea merchant, says he has lost every dollar he had in the world by earthquake and fire.

**Bulletin.** At 9 a.m. the fire is still raging. No possibility of checking flames. Whole city is doomed. The Secretary of Treasury has authorized \$10,000,000 transferred from the sub-treasury at New York to San Francisco.

Gen. Funston says 20,000 people are homeless. Two small shocks at Washington, D. C., this morning. Food is very scarce in San Francisco. Provision houses are all destroyed. Later reports say that the U. S. Mint in San Francisco has gone, with all its treasure.

### WORSE AT SAN JOSE.

At San Jose the entire business portion is in ruins this morning, and loss of life is reported at 150 persons. The city is under martial law and streets are patrolled by troops. All the hospitals are crowded with dead and dying. The electric light plants are ruined and the city was in darkness last night. Both the Courthouse and Hall of Records have collapsed.

### SANTA ROSA'S HORROR.

The collapse of the Strose Hotel and Grand Hotel and two brick buildings used for lodging-houses at

**Santa Rosa buried many victims in the ruins. Thirty-eight bodies have been taken from the hotels and it is said at least one hundred are covered by the fallen walls. Great damage was done to buildings.**

**The report generally circulated early this morning that the town of Tracy has been destroyed is false. Slight damage to buildings is the extent. No lives lost.**

**[BULLETIN NO. 1.]**

**WHOLE CITY IS DOOMED.**

**OAKLAND (Cal.) April 19, 9 a.m.**—The fire is still raging throughout San Francisco and there is no possibility of stopping it until it exhausts itself for want of material. The city is doomed. The authorities are still dynamiting buildings in the vain hope of checking the progress of the flames.

**[BULLETIN NO. 2.]**

**STOCK MARKET AFFECTED.**

**NEW YORK, April 19.**—The crowning dimensions of the San Francisco calamity brought heavy offerings of stocks upon the market and the opening prices today showed wide declines from last night. Stocks of companies with property on the coast were most acutely affected. United Railways investments fell 6, preferred 5 1-2; Wells Fargo Express 4, Pacific Mail 3 1-2, and Union Pacific 3 1-2. Smelting fell 3-8, Ancon 2-8, Reading 1-5. Losses throughout the list ranged from a large fraction to a point.

**[BULLETIN NO. 3.]**

**WORKED LIKE HEROES.**

**CHICAGO, April 19.**—The Associated Press force at San Francisco is still on duty awaiting relief men. The Associated Press force at San Francisco which had done such remarkable work includes Paul Cowles, Superintendent; R. C. Johnson, E. E. Curtis, J. McCarroll, John Finlay and P. H. McDonald, editors; R. L. Creighton and R. J. Waters, stenographers, and R. E. Geistlich, B. F. McInerney, W. F. Lynch, J. K. Brown and Harry Collins, operators.

**[BULLETIN NO. 4.]**

**AID FROM UNCLE SAM AND EAST.**

**WASHINGTON, April 19.**—The Department of Commerce and Labor will lend all possible aid to the San Francisco sufferers. Secretary Metcalf has directed the lighthouse tender Madrono and the U.S.S. Albatross to go at once to the stricken city and do everything practicable to aid the sufferers.

**NEW YORK, April 19.**—The National Park Bank today transferred to San Francisco, through the sub-treasury, between \$3,000,000 and \$4,000,000 in gold.

M. Guggenheims Sons today notified Gen. Funston that they had contributed \$50,000 for the relief of the San Francisco sufferers.

## HALF MILLION BY THE U. S. SENATE.

**WASHINGTON, April 19.**—Soon after the Senate was called to order today Mr. Perkins introduced a joint resolution authorizing the Secretary of War to use supplies for the relief of destitute persons in the region devastated by the earthquake and fire in California, and making an appropriation of \$500,000 to relieve the suffering.

Following is the text of the resolution: "Whereas, the most terrible disaster which has ever taken place on this continent has occurred in the State of California, in which one-half of the city of San Francisco has been practically destroyed by earthquake and fire, and many towns and cities along the coast have suffered from similar devastations, and

"Whereas, in all the afflicted localities there has been wrought much ruin as has resulted in great loss of life and the serious injury of thousands of people; and

"Whereas, the destruction of dwelling houses has rendered homeless 100,000 of the inhabitants of San Francisco alone, and

"Whereas, there is most urgent need to bury the dead, care for the injured and shelter and feed the homeless, and

NAVY YARD ESCAPES. **WASHINGTON, April 19.**—A telegram received at the Navy Department today from the commandant at Mare Island Navy Yard, sent since the earthquake, reports that \$1000 will cover the damage done there. No mention is made of any injuries to any of the people of the yard.

**WAR DEPARTMENT.**

**WASHINGTON, April 19.**—Prompt action has been taken by the War Department extending to the earthquake sufferers of San Francisco.

**ON NOB HILL.**

**NEW YORK, April 19.**—The Western Union received a report that early this morning the fire spread in the Nob Hill section of San Francisco. This is the section in which are located many fine residences, including the Crocker and Huntington homes.

**WASHINGTON DISTURBED.**

**WASHINGTON, April 19.**—The Weather Bureau today issued the following bulletin: "Two small aftershocks of the San Francisco earthquake were recorded on the seismograph at the Weather Bureau, Washington, D. C., during the night and this morning.

The first shock was decidedly stronger than the other one, although both were very slight compared to the original disturbances. The principal portion, that is, the strong motion in the first shock, occurred at 8:46 p.m., and in the second, shock about 2:03 a.m. The motion in the second shock was especially feeble and ill-defined.

(Signed) "WILLIS L. MOORE, Chief U. S. Weather Bureau."

"WHEREAS, The local administrations will for some time be unable to cope with the situation and extensive aid and assistance is immediately necessary; therefore,

"BE IT RESOLVED, That the sum of \$500,000, such part thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated, to be expended by and under the direction of the Secretary of War in the purchase and distribution of, quartermasters and commissary stores, to such extent and in such manner as may require assistance in the district devastated by the earthquake and fire.

The Secretary of War is authorized to use the steamers and other boats and vessels belonging to or now employed by the government upon San Francisco Bay or adjacent waters in transportation and distribution of supplies furnished by the United States to individuals to such destitute people, and he may employ such other means of transportation as he may deem necessary to carry the purpose of this joint resolution into effect.

The reading of the journal was dispensed with in order to permit the earliest possible attention of the resolution. In offering it, Mr. Perkins asked for immediate consideration, and dispensing with the formality of reference to a committee. No objection was made, and the resolution was passed without comment.

**FROM GEN. FUNSTON.**

**WASHINGTON, April 19.**—The War Department received today the following from Gen. Funston, dated San Francisco, April 19:

"Your four dispatches received. Have already filed several for you. It is impossible now to inform you as to the full extent of the disaster. City practically destroyed. Troops have been aiding police, patrolling and maintaining order. Martial law has not been declared. Working in conjunction with civil authorities. Have not interfered with the sending of any dispatches.

"You cannot send too many tents or rations. About 200,000 people are homeless. Food very scarce. Provision houses all destroyed. All government buildings in city gone."

**MILES OF CABLE.**

**CHICAGO, April 19.**—The Western Union today sent to San Francisco ten miles of serial cable and wire necessary to completely equip the new office in this city. The consignment went by special train, following a carload of telegraph instruments, which went on the Overland limited. Chief Electrician McKinnick and a number of assistants left for San Francisco last night. Salt Lake and Portland have been drawn upon for additional operators to man the extra wires as soon as connections are made.

**TRAIL OF THE FIRE DEMON.**

The burned district extends from the waterfront south of Market street to Howard street and west to Eleventh street. North of Market the fire extends on Hays and McAllister streets nearly to Fillmore and from the waterfront along Market to Montgomery and north from the waterfront to Montgomery street.

Manufactories, hotels, wholesale houses and residences, comprising the principal part of the business section, have been destroyed.

**"WHITE ELEPHANT" GONE.**

The City Hall, a structure costing \$7,000,000, was first wrecked by the earthquake, and then destroyed by fire.

**THE PALACE LOSS.**

The Palace Hotel, value estimated at \$3,000,000 also burned.

**SPRECKELS BUILDING.**

The beautiful Claus Spreckels building at Third and Market streets was destroyed.

The Rialto Building and dozens of other costly structures were also destroyed.

**HALL OF JUSTICE.**

The Hall of Justice is threatened, and will absolutely go. The Examiner and Call buildings are gone, and the Chronicle Building across the street from the Palace Hotel is on fire.

**COMMITTEE OF SAFETY.**

At a meeting of the Committee of Safety, today, Mayor Schmitz issued the following proclamation:

"To the Citizens of San Francisco: The Federal troops which are now policing a portion of the city, as well as the regular and special members of the police force, have been authorized by me to kill any persons whomsoever found engaged in looting the effects of any citizen or otherwise engaged in the commission of crime.

"Under these circumstances, I request that all citizens whose business does not imperatively require their absence from home after dark to remain at home during the night, until order shall have been restored. I beg to warn all citizens of the danger of fire on account of the defective or destroyed chimneys, gas pipes, gas fixtures and the like.

(Signed.)

"E. E. SCHMITZ, Mayor."

Tonight, the firemen were as far as ever from checking the progress of the flames. In the northern section of the downtown business section the fire swept around the Hall of Justice and communicated to Chinatown, and then proceeded westward into the heart of that colony. It began rapidly eating its way northward on both sides of Kearney street, and at 7 p.m. was within a block of the California Hotel.

**NEWSPAPER WORK STOPS.**

This point is in the direct vicinity of the plant of the Bulletin, an evening publication, in which the three morning papers had agreed to issue jointly a four-sheet paper tomorrow, but that plan was abandoned.

**PALACE HOTEL'S FALL.**

About 6 o'clock tonight, the world-famous Palace Hotel fell a prey to the conflagration, and the Crocker building across the street began emitting smoke.

**ST. IGNATIUS DESTROYED.**

One of the big losses of the day was the destruction of St. Ignatius Church and College at Van Ness avenue and Hayes street. This was the greatest Jesuit institution in the West, and was built at a cost of a couple of a million of dollars.

**CONDITION AT 7 P. M.**

At 7 o'clock, the fire had swept from the south side of the town, across Market street into the district called the "Western Addition," and was burning at Golden Gate and Octavia avenue. This result was reached after almost the southern district from Ninth street to the eastern waterfront had been converted into a blackened waste.

In this section were hundreds of factories, wholesale houses and many business firms in addition to thousands of homes.

**SLOWER ON NORTH SIDE.**

On the North Side, tonight, the fire was not making such rapid progress as in the Western Addition, as there is a limited supply of water available, and the firemen are making desperate efforts to prevent the encroachment of the devastation.

**MAYOR IN A TENT.**

Temporary headquarters were established in tents in Portsmouth Square this evening for Mayor Schmitz, Chief of Police Dinan and Gen. Funston, but this site became too dangerous about 6 o'clock, and was abandoned. Later the flames swept the square.

**ST. MARY'S HOSPITAL BURNS.**

In the South Side district, on Rincon Hill, St. Mary's Hospital, a landmark, conducted by the Sisters of Mercy, was reduced to ashes.

**PUBLIC SQUARE OCCUPIED.**

Throughout the city, wherever there is a public square, a scene of desolation is presented. Tents have been pitched by the fortunate possessors of canvases, but the majority of homeless people are huddled in frightened groups about the household belongings they agreed to save from the general ruins.

**AT GOLDEN GATE PARK.**

From Golden Gate Park comes news of the total destruction of the immense building covering a portion of the Chinese playground. The walls are shattered beyond repair, and the roof has fallen in. The pillars of the new stone gate at the Park entrance are twisted and torn from their foundations. Some of them, weighing nearly four tons each, were shifted a though they were constructed of staff.

**DEWEY MONUMENT SHIFTS.**

In Union Square Park, where a number of the homeless are now

**WASHINGTON, April 19.**—Secretary Taft last night directed another message to be sent immediately to Gen. Funston, urging him to advise the War Department of the conditions at San Francisco as soon as possible and to do everything in his power to let the public at large know of the actual state of affairs in the stricken city.

The War Department was advised that an officer who has an automobile had consented to make an attempt to reach Gen. Funston at once and carry the dispatches which have accumulated at Oakland and could not be sent because of lack of ferry accommodations, at 11 o'clock last night.

being given temporary shelter, the mighty Dewey monument has been shifted from its base. It is now leaning at an angle of 10 degrees, and there is danger of the immense stone structure falling.

**FERRYBOATS RUNNING.**

This afternoon, the ferryboats resumed running from Oakland, and tonight thousands of homeless and panic-stricken people are leaving the city, and are seeking shelter in Oakland and other suburban towns.

**FOREIGNERS SUFFER.**

The suffering and hardship beggars description. Countless numbers of residents of the poorer section of the city, including the Chinese, Japanese and Italian quarters, have been rendered homeless, and unless supplies and aid reach the city within twenty-four hours, starvation will add to the awful calamity.

**OLD LANDMARKS DISAPPEAR.**

Nearly every landmark that has made San Francisco famous over the whole world has been laid in ruins or burned to the ground in the dire catastrophe. Never has the fate of a city been more disastrous.

**NOTABLE BUILDINGS DESTROYED.**

Among the notable buildings destroyed were the Grand Opera house on Mission street, where the Conried Opera Company opened its season Monday night. The members of the troupe are now at the St. Francis Hotel, one of the few big hotels that are still standing.

The Majestic Theater at Market and Eighth streets was burned. The Columbia was wrecked by the earthquake and the Central razed by the flames.

The \$1,000,000 Fairmount Hotel is still standing and suffered little damage.

The Odd Fellows' Temple, the St. Nicholas Hotel and the Call and the Examiner and the Parrott Buildings are gone.

A big cave-in completed the earthquake which shook the city.

**FACTORIES DEMOLISHED.**

Nearly every big factory building has been wiped out of existence, and a complete enumeration of them looks like a copy of the city directory.

Many of the finest buildings in the city were leveled to the dust by terrific charges of dynamite in the hopeless effort to stay the horror of fire.

In this work many heroic soldiers, policemen and firemen were maimed, or killed outright.

**WATER FRONT SWEEP CLEAN.**

For three miles along the water front, buildings have been swept clean, and tonight the blackened beams and great skeletons of factories and offices stand silhouetted against a background of flame that is slowly spreading over the entire city.

**COMMERCIAL DISTRICT PASSES.**

The whole commercial and office section of the city on the north side of Market street from the Ferry building to Tenth street has been consumed in the flames, while hardly a building is standing in the district south of Market street.

**UP MONTGOMERY STREET.**

At 2 o'clock, despite the heroic work of the firemen and the troops of dynamiters, who razed building after building and blew up property valued at millions, the flames spread across Market street to the north side and swept up Montgomery street, practically to Washington street.

**NEW EXCHANGES STAND.**

Along Montgomery street are some of the richest banks and commercial houses in San Francisco. The famous Mills Building and the new Merchants' Exchange, in which is situated the Marine and Stock Exchanges are still standing, but the Mutual Life Insurance Building and scores of banks and office buildings are on fire, while blocks of other houses are in the path of the flames, and nothing seems to be at hand to stay their progress. Block after block of business houses are red-hot masses of ruin, and it will be months before the money that was housed in their vaults can be reached.

**STOCKTON'S AID.**

**STOCKTON (Cal.) April 19.**—Falling to reach San Francisco authorities by wire, Mayor Gardner of Stockton left for San Francisco this morning to personally offer Stockton's aid. A meeting of the Stockton Chamber of Commerce had been called for 1:30 p.m. to take steps toward relieving the distress in the stricken city. Little or no damage done here.

**LUCKY FRESNO.**

**FRESNO (Cal.) April 19.**—The earthquake did no damage in Fresno, although it was the heaviest shock ever felt here. At Los Banos, on the border line of the county, heavy damage was done. Several brick buildings were wrecked, including the Los Banos Hotel, a three-story building, the Miller & Lux store, two-story, and the Los Banos Bank, two-story. The loss is \$75,000. No fatalities.

**ST. LOUIS SYMPATHY.**

**ST. PAUL, April 19.**—Mayor Smith has sent a telegram to Mayor Schmitz of San Francisco, extending the sympathy of the city of St. Paul and offering any aid that may be needed.

**NEBRASKA'S CALL.**

**LINCOLN, NEB., April 19.**—Governor Mickey today issued a call to the people of Nebraska to contribute to a fund for the benefit of the sufferers in San Francisco.

**[BULLETIN NO. 5.]**

**THE GOVERNOR HOPEFUL.**

**OAKLAND (Cal.) April 19.**—(Exclusive Dispatch.) Gov. Pardee has issued the following statement: "The appalling calamity which has befallen the metropolis of the State and its neighboring cities, leaves one without words to express one's feelings. No one yet fully grasps what has happened, although it is to be hoped that the stories concerning the loss of life are greatly exaggerated. The loss of property from the earthquake, of course, though small in comparison with that resulting from the following conflagration, would have been serious enough to have aroused the attention of the whole world. "It has been a source of pleasure among all the harrowed thoughts of this day of terror, to have received from the governors of a dozen or more States, messages of sympathy for our

stricken city and its people and proffers of assistance of any kind that may be needed. The President of the United States sent two dispatches of condolence, sympathy, inquiry and proffers of assistance.

These messages, in our hour of deep trouble, give us assurance that our distress is shared by our friends in other States. San Francisco, though hard hit, is not by any means destroyed. The courageous people will soon recover from their dismay, and the city by the Golden Gate will arise again, a new city, one that we shall be even prouder of than of the old one.

"While we are for the moment daunted, despair is far from our thoughts."

**"GEORGE C. PARDEE,"**

**"Governor of the State."**

**CHICAGO ACTS.**

**CHICAGO, April 19.**—Mayor Dunne returned from his Eastern trip today, and immediately on reaching his office sent the following message to Mayor Schmitz at San Francisco: "Accept Chicago's most profound sympathy in great affliction. In what way can we best give you relief?"

Adolph Kraus, president of the order B'nai B'rith, wires today to the secretary of the district grand lodges of the order, instructing them to forthwith write to each community to collect funds for the relief of the city. A special meeting of the City Council will be held late today to take appropriate action.

**REFUGEES TO OAKLAND.**

**OAKLAND, April 19.**—On learning that thousands of refugees from San Francisco have come to this city, the Realty Syndicate offered Idora Park for the use of the sufferers from the earthquake. This has been gratefully accepted by the police and fire commissioners, and two hundred cots have been placed in the theater for the use of the refugees.

Relief stations have also been established at the City Hall and at the various public parks throughout the city. Other relief stations have also been established in such of the churches throughout the city as are considered safe for use as such.

**FLAMES JUMP THROUGH GAPS.**

But through the gaps made the flames jumped, and although the firemen and soldiers were at times skimming the work was continued with a desperation that will live as one of the features of the terrible disaster.

## NEW YORK INTERESTS

**Fire Insurance Men Deep Concern.**

**Important Problem in Relation to Home.**

**Form of Policy Material Present Issue.**

(BY DIRECT WIRE TO THE NEW YORK, April 19.—(Exclusive Dispatch.) Fire insurance men in this city were deeply interested in the dispatches from San Francisco, which stated that the earthquake and fire had destroyed the city. The status of the rule in California metropolis cannot be ascertained until complete reports are received.

Whether the fire insurance men are to be heavy losers, or escape almost all loss, will depend upon how the damage in San Francisco is determined. The earthquake and fire have proved to have been a disaster of unprecedented proportions. If any building full of fire, the companies carrying insurance on the building, the building, the companies are liable for the loss on the policy, if insured.

Few of the large companies have been reported as not being insured in San Francisco. The New York office, and the New York office, and the New York office, are not insured, as in San Francisco, as to the character of the used in that city.

**THE HOME COMPANY.** The Home Company, which in New York, transmits to California through the Pacific, and it was stated yesterday, that the only policy it issues in San Francisco is the standard form of the Home Company. This entirely ignores the earthquake, or falling of buildings, or any other cause of fire resulting in the loss of the building, shall not be covered under the policy, making the liable for loss.

**FIREMAN'S FUND.** In a statement of the fireman's fund in San Francisco, it appears that the fund is the largest individual fund in that city, and the fireman's fund, which is only third in the list of insurance companies, representing the largest amount of premiums received in the city, is the smallest of the fund, though the total loss of the fund is the largest.

**SLIDE POSSIBLE.** According to Prof. Charles D. Walcott, of the Department of Columbia University, the slide of the city, which is the largest, is the largest, and the slide of the city, which is the largest, is the largest, and the slide of the city, which is the largest, is the largest.

**SLIDE POSSIBLE.** According to Prof. Charles D. Walcott, of the Department of Columbia University, the slide of the city, which is the largest, is the largest, and the slide of the city, which is the largest, is the largest, and the slide of the city, which is the largest, is the largest.

## WHOLE CITY GIVES FOR THE STRICKEN.

Los Angeles Bounty Pours Out Generously to Victims of Horror.

Citizens' Relief Committee, Promptly Organized, Pledges One Hundred Thousand Dollars for the Sufferers—People and Organizations Vie for Opportunity to Render Assistance. Many Plans for Benefits.

INCLUDING a small part of the \$100,000 pledged yesterday by the newly-formed Citizens' Relief Committee, the following subscriptions were made yesterday for the relief of those who suffered by the San Francisco earthquake:

City of Los Angeles	\$ 5,000.00
Local Parlor, Native Sons	5,000.00
Citizens' Relief Committee	4,000.00
Young Men's Christian Association	1,000.00
The Elks	1,000.00
Wholesale Produce Dealers	1,000.00
Through The Times	37,022.33
<b>Total</b>	<b>\$44,022.33</b>

PROMPTLY and spontaneously did Los Angeles rise to the bitter need of the occasion, and move to extend the relief so urgently needed to the stricken San Francisco. Awaiting no general call for aid, individuals and civic and private organizations and enterprises took steps within a few hours to send North money, supplies and surgical help. Scores of doctors and nurses volunteered their services. It was only to know what was desired and the desire was met. Early in the day The Times suggested the first relief fund, and a stream of gold began to pour into this office, to be forwarded to San Francisco. This subscription late last night amounted to \$7,022.33.

A general relief fund was started by a committee composed of three members each of the City Council, the Chamber of Commerce, the Board of Trade and the Merchants' and Manufacturers' Association. This committee pledged \$100,000. Bishop Conaty at once started a move for the subscription of a fund by the Catholics of this diocese; the Young Men's Christian Association, a special messenger with \$100, to be apportioned between San Francisco and San Jose; C. M. Pierce of the Ballroom Tour excursions arranged for a benefit day; the Unique Theater tendered its net receipts for next Tuesday night; the Dreamland Roller Skating Rink arranged a benefit to be given tonight; the Los Angeles Choral Society volunteered to give a concert for the relief of which L. E. Behrmer and his office help will donate their services; the Chamber of Commerce started a relief fund, and numbers of other plans were made with the same end in view.

Large and small subscriptions alike were made to the relief fund suggested by The Times. As the fund grew, the Chamber of Commerce, the Board of Trade and the Merchants' and Manufacturers' Association, each gave \$500. Byron Erbenbrecher, A. Penot and Wright & Callender, each gave \$250, and there were numerous contributions of \$100 and under. Even the lowest gave of their stores. From all sides came a substantial proof of hearts touched by the terrible calamity.

THROUGH "THE TIMES."

Among the first to be heard from after the relief fund had been suggested by The Times was Henry E. Huntington, president of the Pacific Electric Railway. At a late hour last night, the subscribers and the amounts they contributed were as follows:

Henry E. Huntington	\$10,000
C. A. Canfield	2,500
Second Church of Christ Scientist	2,500
J. R. Newberry	500
Byron Erbenbrecher	500
Wright & Callender	250
Wright & Callender	250
C. W. Nicklin	250
B. E. Stephens	100
N. N. C.	100
S. W. Alexander	100
Cash	100
Vincent, photographer	100
Tarr & McComb	100
Brownstein, Newmark & Lewis	250
E. B. Lewis	50
W. R. Black	50
No name	50
J. A. Lee and Cold Storage Co.	500
Angela Hotel employees	48
Los Angeles Times	10,000
<b>Total</b>	<b>\$27,022.33</b>

Among the first to take relief steps was the Young Men's Christian Association. Members of the Citizens' Relief Committee that is conducting the campaign for a new Y.M.C.A. building met at noon for discussion of that project. All thoughts of the building were swept aside in face of the awful news from San Francisco.

After a short discussion, resolutions were adopted, expressing sympathy for the unfortunate communities in the North and delegating Arthur C. Best, president of the local association, to go forth at once with \$1000 that was subscribed by members of the committee present. It was the intention to send this money by mail, but Mr. Letts volunteered his services and he left at 4 o'clock for the North, with \$1000 for San Francisco and \$500 for San Jose, to be expended by the associations of those cities to the best of their judgment. Shortly after Mr. Letts had gone, \$100 more was subscribed.

Those who contributed to the Y.M.C.A. fund are D. K. Edwards, O. T. Johnson, E. P. Clark, Gail Borden, J. Ross Clark, George L. Cochran, A. J. Wallace, S. P. McLeod, James G. Warren, H. Stine, E. T. Earl and Arthur Letts, \$100 each; Dr. Francis Kellogg, Walter Fisher, W. L. Hollingsworth, A.

B. Cass, W. E. McVey and W. S. Bartlett, \$50 each; D. E. Luther, A. P. Chipman, George Arnold and Gregory Perkins, \$25 each.

CHAMBER OF COMMERCE.

The regular meeting of the Chamber of Commerce was to take place yesterday afternoon, but as soon as the magnitude of the San Francisco disaster was realized, a special meeting of the directors was called at an earlier hour. They passed the following resolution:

"That the Los Angeles Chamber of Commerce hear, with consternation and the profoundest sympathy, of the terrible disaster which has befallen the chief city of our State. The disaster is so sudden and overwhelming that it appeals with imperative demand to all our citizens for all the aid of every kind which we can give to the stricken citizens of San Francisco, and to that end all our citizens are called upon to subscribe to the relief fund which this Board of Directors has instituted, which will be carefully disbursed under the supervision of the Citizens' Relief Fund of the Chamber of Commerce."

The meeting appointed as a special committee W. J. Washburn, J. O. Keefe, James C. Kays, H. T. Lee, J. B. Ruch, F. Q. Story and Frank Wiggins. They have laid down to act for the Chamber of Commerce in the relief of the citizens of San Francisco, alone or in cooperation with other bodies.

The directors after adjournment hastened to the aid in the work of preparation. The Mayor of San Francisco, said to the committee went to the City Hall to confer with the City Council and the Board of Supervisors. Some people called in at the Chamber of Commerce and left their contributions without being asked. These were: A. Griffin, \$10; E. Sutton, \$10 and S. A. Moore, \$5.

W. J. Washburn has sent a message to the Mayor of San Francisco, saying that our time and money were at the command of the stricken city, and asking for the Mayor's answer.

BALLOON EXCURSION.

All the proceeds of the daily Balloon Tour excursion over the Los Angeles Pacific Railway to the beaches and excursions Saturday, will be devoted exclusively to the relief of the earthquake at San Francisco. C. M. Pierce, the proprietor of this excursion, will work hand in hand with his assistants to make this day a record breaker for the Balloon Route, the excursion rate for which is \$1 for the whole trip.

Mr. Pierce, who is big, is skating rink at Playa del Rey, has also announced that all the profits from the rink next Friday evening will be devoted to the cause of relief. It is hoped that all who intend to skate will attend Friday evening.

OTHER RELIEF PROJECTS.

All moneys paid for admissions to the Dreamland roller skating rink, Tuesday and Main streets, tonight will be donated by the management of the rink to the San Francisco relief fund. At a time to be selected early the Los Angeles Choral Society volunteers to give a concert for the relief of which L. E. Behrmer and his office staff giving their service for this cause.

Mr. J. L. Long, manager of the Louisville Underwriter Agency has started a subscription list among insurance men, and will call upon them or receive their subscription to the fund. The Conservative Life building.

Other individuals are making similar contributions and in some cases likely that before it is completed every person desiring to contribute may do so through one avenue or another.

The management of the Unique Theater will donate the entire net receipts from the performance of next Tuesday evening.

In a hurried canvass among wholesale produce dealers, Louis M. Cole, treasurer of the R. Levy Company, has secured the names of 100 wholesale produce men, collected about \$1000 from fifteen dealers. There are about forty-five wholesale produce firms in the city and in his next day Mr. Cole expects to swell the fund to a total of \$2000 or \$2500, which he will forward promptly and accounted for.

The acting Chief of Police of Los Angeles, J. J. Connelley, has telegraphed a condolence to the department in San Francisco, tendering the aid of the Los Angeles police department in any way possible to the stricken city.

The entire net receipts of the Horse Show now in progress are to be donated to the stricken people of San Francisco.

A special meeting of the Knights of Columbus, Los Angeles Council No. 821, will be held at 8 o'clock this evening at No. 1031 South Grand avenue, to take action with a view to raising funds to relieve the victims of the temblor.

Y. M. C. A. PROMPT.

GIVES GENEROUSLY.

SECOND CHURCH OF CHRIST.

The following letter received last night, explains itself:

"Editor Los Angeles Times—Dear Sir: In response to your commendable and humane action in so promptly inaugurating a subscription list to aid our fellow-citizens in San Francisco, the congregation of the Second Church of Christ, Scientist, of Los Angeles, Cal., at its regular Wednesday evening meeting assembled in Simpson Auditorium, this Wednesday evening, April 9, 1908, to express the needs of our stricken friends and neighbors in San Francisco, do hereby resolve to contribute to the collection in their behalf, the same to be forwarded with the fullest measure of our love and sympathy in this their hour of trouble."

"I take pleasure in informing you that you may enter the name of our congregation on your subscription list for the sum of \$2300.33."

Yours sincerely, W. E. BROWN, "Assistant, Christian Science Publication Committee."

### SUMMARY OF THE DAY.

Stirred by the awful object lesson of San Francisco's disaster, the Building Committee of the Council has started to revise our building ordinance; the height of buildings is to be limited to 125 feet.

Mrs. Mary J. Powers won her breach of promise suit against James Bailey yesterday, but was awarded only \$500 by Judge York. She claimed \$10,000.

Rev. James Wylie and Mrs. Fannie Green have been held by Justice Pierce to answer a charge of bigamy preferred by Mrs. Flora Wylie.

William B. Baker, claiming that he could not get a fair trial in San Bernardino, got a writ of habeas corpus and will be tried in this county before Judge Trask.

Hawkins granted a divorce by Judge Trask, and at the same time denounced as a worthless husband.

### AT THE CITY HALL.

#### PLACE BAN ON SKYSCRAPERS.

#### NO MORE HIGH BUILDINGS FOR LOS ANGELES.

Building Committee Favors Limiting All Classes of Construction to One Hundred and Twenty-five Feet. Steel Frames and Fireproof Structures Only for Business District.

Stirred out of its lethargy by the awful havoc wrought to San Francisco yesterday morning's earthquake, the Building Committee of the City Council all determined to go to the wood's earnest at revising the present building ordinances.

Already the members have decided that there shall be no "skyscrapers" reared in Los Angeles, though there are no apprehensions of danger here.

The present ordinance limits the height of buildings to 120 feet. This is to be cut to 125 feet, and the ordinances affecting steel construction are to be made more stringent.

Building Inspector Backus has been working with a committee for months on a new building ordinance. The draft was to be presented to the Council next Monday. It is in the nature of a compromise between the underwriters and the Council. Now this draft is being revised and the restrictions will be much more stringent.

The Councilmen read with deep interest the report of the earthquake published in the special editions of The Times. They were attracted by the statement that the buildings of cheap brick construction that went first.

"The directors after adjournment hastened to the aid in the work of preparation. The Mayor of San Francisco, said to the committee went to the City Hall to confer with the City Council and the Board of Supervisors. Some people called in at the Chamber of Commerce and left their contributions without being asked. These were: A. Griffin, \$10; E. Sutton, \$10 and S. A. Moore, \$5."

W. J. Washburn has sent a message to the Mayor of San Francisco, saying that our time and money were at the command of the stricken city, and asking for the Mayor's answer.

BALLOON EXCURSION.

All the proceeds of the daily Balloon Tour excursion over the Los Angeles Pacific Railway to the beaches and excursions Saturday, will be devoted exclusively to the relief of the earthquake at San Francisco. C. M. Pierce, the proprietor of this excursion, will work hand in hand with his assistants to make this day a record breaker for the Balloon Route, the excursion rate for which is \$1 for the whole trip.

SECOND CHURCH OF CHRIST.

The following letter received last night, explains itself:

"Editor Los Angeles Times—Dear Sir: In response to your commendable and humane action in so promptly inaugurating a subscription list to aid our fellow-citizens in San Francisco, the congregation of the Second Church of Christ, Scientist, of Los Angeles, Cal., at its regular Wednesday evening meeting assembled in Simpson Auditorium, this Wednesday evening, April 9, 1908, to express the needs of our stricken friends and neighbors in San Francisco, do hereby resolve to contribute to the collection in their behalf, the same to be forwarded with the fullest measure of our love and sympathy in this their hour of trouble."

"I take pleasure in informing you that you may enter the name of our congregation on your subscription list for the sum of \$2300.33."

Yours sincerely, W. E. BROWN, "Assistant, Christian Science Publication Committee."

Stirred out of its lethargy by the awful havoc wrought to San Francisco yesterday morning's earthquake, the Building Committee of the City Council all determined to go to the wood's earnest at revising the present building ordinances.

Already the members have decided that there shall be no "skyscrapers" reared in Los Angeles, though there are no apprehensions of danger here.

The present ordinance limits the height of buildings to 120 feet. This is to be cut to 125 feet, and the ordinances affecting steel construction are to be made more stringent.

Building Inspector Backus has been working with a committee for months on a new building ordinance. The draft was to be presented to the Council next Monday. It is in the nature of a compromise between the underwriters and the Council. Now this draft is being revised and the restrictions will be much more stringent.

The Councilmen read with deep interest the report of the earthquake published in the special editions of The Times. They were attracted by the statement that the buildings of cheap brick construction that went first.

"The directors after adjournment hastened to the aid in the work of preparation. The Mayor of San Francisco, said to the committee went to the City Hall to confer with the City Council and the Board of Supervisors. Some people called in at the Chamber of Commerce and left their contributions without being asked. These were: A. Griffin, \$10; E. Sutton, \$10 and S. A. Moore, \$5."

W. J. Washburn has sent a message to the Mayor of San Francisco, saying that our time and money were at the command of the stricken city, and asking for the Mayor's answer.

BALLOON EXCURSION.

All the proceeds of the daily Balloon Tour excursion over the Los Angeles Pacific Railway to the beaches and excursions Saturday, will be devoted exclusively to the relief of the earthquake at San Francisco. C. M. Pierce, the proprietor of this excursion, will work hand in hand with his assistants to make this day a record breaker for the Balloon Route, the excursion rate for which is \$1 for the whole trip.

Mr. Pierce, who is big, is skating rink at Playa del Rey, has also announced that all the profits from the rink next Friday evening will be devoted to the cause of relief. It is hoped that all who intend to skate will attend Friday evening.

OTHER RELIEF PROJECTS.

All moneys paid for admissions to the Dreamland roller skating rink, Tuesday and Main streets, tonight will be donated by the management of the rink to the San Francisco relief fund. At a time to be selected early the Los Angeles Choral Society volunteers to give a concert for the relief of which L. E. Behrmer and his office staff giving their service for this cause.

Mr. J. L. Long, manager of the Louisville Underwriter Agency has started a subscription list among insurance men, and will call upon them or receive their subscription to the fund. The Conservative Life building.

Other individuals are making similar contributions and in some cases likely that before it is completed every person desiring to contribute may do so through one avenue or another.

The management of the Unique Theater will donate the entire net receipts from the performance of next Tuesday evening.

In a hurried canvass among wholesale produce dealers, Louis M. Cole, treasurer of the R. Levy Company, has secured the names of 100 wholesale produce men, collected about \$1000 from fifteen dealers. There are about forty-five wholesale produce firms in the city and in his next day Mr. Cole expects to swell the fund to a total of \$2000 or \$2500, which he will forward promptly and accounted for.

The acting Chief of Police of Los Angeles, J. J. Connelley, has telegraphed a condolence to the department in San Francisco, tendering the aid of the Los Angeles police department in any way possible to the stricken city.

The entire net receipts of the Horse Show now in progress are to be donated to the stricken people of San Francisco.

A special meeting of the Knights of Columbus, Los Angeles Council No. 821, will be held at 8 o'clock this evening at No. 1031 South Grand avenue, to take action with a view to raising funds to relieve the victims of the temblor.

## SISTER CITY STUNNED BY THINGS OF DOOM.

Los Angeles Dazed by Story of San Francisco's Fate—How the Dread News Was Spread, and Piteous Scenes That Followed.

WHILE huge structures of stone and steel rocked to their doom, and whole streets of tenanted buildings crashed to earth, while flames and explosions were blotting out lives by the hundreds, property by the millions, one slender span of wire 300 miles long withstood the forces of ruin that were turning a city mad.

Other heedlessly for a foot of room at the blacked counter, holding their bits of paper above each others' heads and thrusting them forward and shaking them in the faces of the clerks who were swamped.

THOUSANDS OF TELEGRAMS. One thousand of these telegrams were "fled" at the Postal Company's office on South Spring street, between the hours of 8 o'clock and noon—and not one of them up to noon had been sent.

It was not the company's fault. There was only one wire, that slender cable 300 miles long that had so miraculously withstood the rocking and the reeling of the earth. "We would rather not take your message," the clamorous people were told hundreds upon hundreds of times; "there is only one wire and it will be devotedly exclusive-

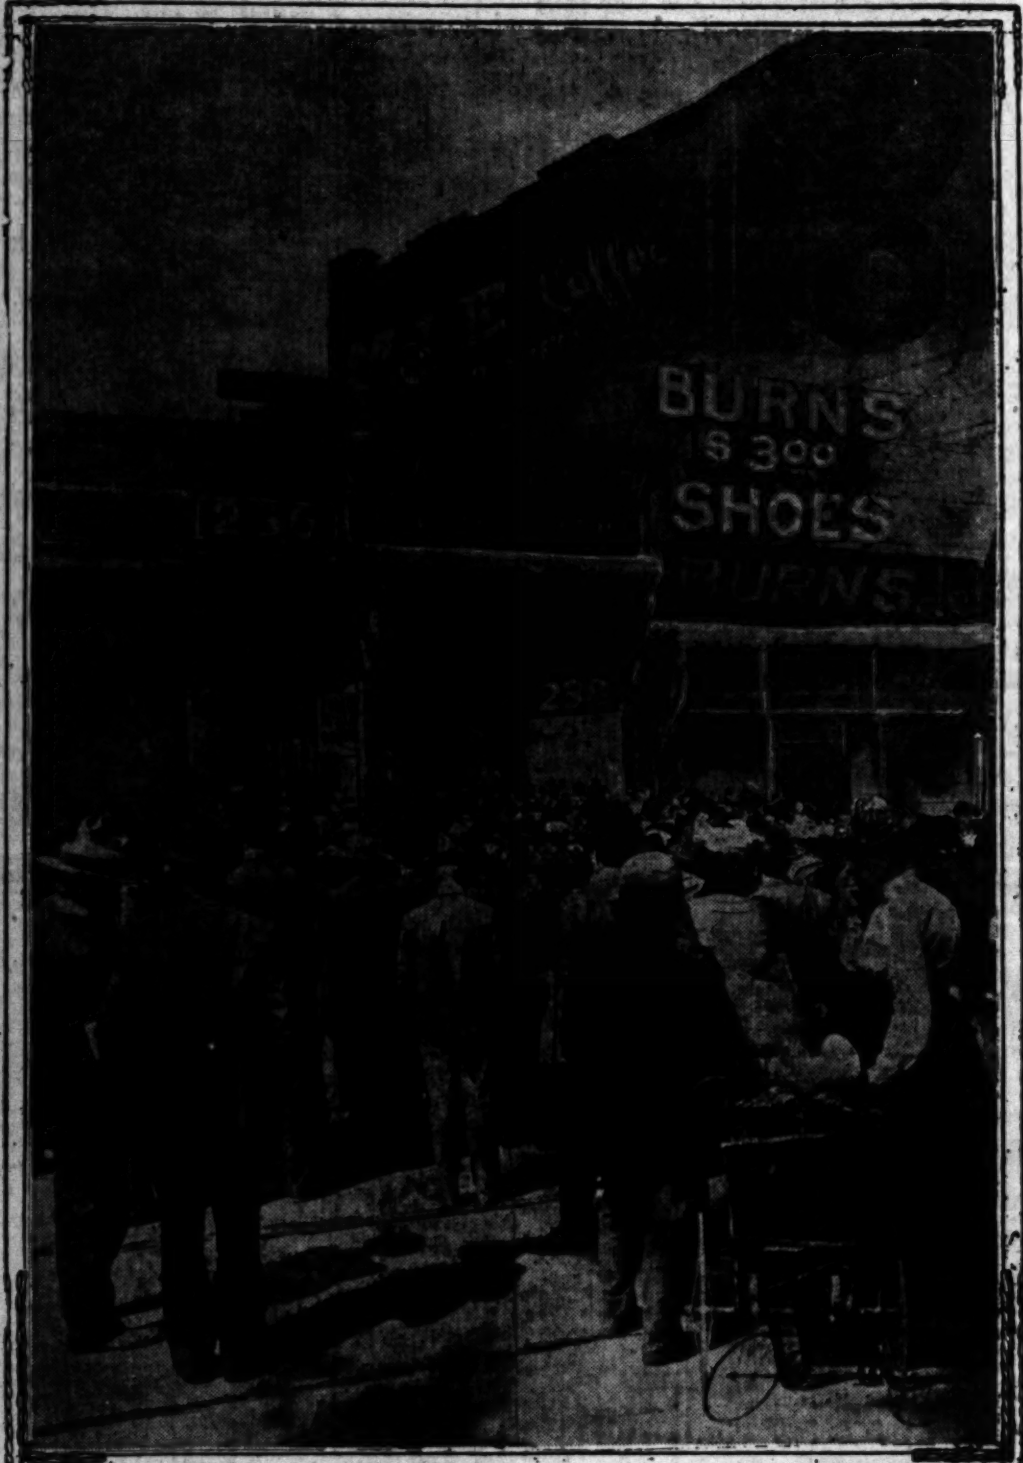

### CARE OF LAWNS.

Interesting Facts Relative to the Maintenance of "the Yard Beautiful."

The lawn is to the home picture what background, foreground and surroundings are to the painting or photograph. A perfect lawn, says the Chicago Chronicle, can not be made upon all kinds of land, but one may succeed in making a fairly satisfactory lawn and keeping it in good condition upon unfavorable soils by proper treatment. If the soil is thin, with a gravelly subsoil, work deeply into it as much organic matter as possible and apply more fertilizing elements and grass seed during the season than if the soil were heavy or moist. Always apply enough water to soak deeply into the soil. A light watering of the surface often only bakes the soil so that the moisture escapes the more rapidly and in the end does more harm than good. Upon thin soils clipping should be frequent, and the clippings should be allowed to remain on the lawn, to serve as a mulch.

In the spring the lawns will be found in a variety of conditions, according to the nature of the soil and the fall treatment which they received. At the north, when the frost works out of the ground, the young plants and the roots of older ones will be found thrown out of the soil, more or less. When severe freezing is over a heavy roller should be used to press them into place.

The annual weeds of last summer and fall have died and left vacant spaces about the lawn, which, if not filled by perennial grasses, will again grow to weeds the coming summer. A supply of good lawn grass seed should

Terrified Los Angeles people, fearful for loved ones in the stricken northern city, besieging the Postal Telegraph office yesterday, vainly striving to send or receive messages. The crush was so great that women fainted.

ings was spread broadcast through the streets by an extra edition issued by The Times. It appeared on the curb at 7:30 o'clock, an hour before any other newspaper got its first extra off the press. It caught the early outgoing trains and conveyed the appalling news to all surrounding towns and settlements hours ahead of every competitor. In every city and town around the first startling news was given by The Times.

As fast as additional details, telling of ruin multiplied and chaos increased, came thrilling over that solitary wire, later extra editions were reeled off the great presses in the basement of The Times building, and corps of carriers rushed away with them, calling the further news. Thus at 8:30 o'clock The Times' second extra appeared, at 10 o'clock the third, at 11 the fourth, at noon the fifth, at 3 o'clock the sixth; and so on throughout a day of terror and suspense that never in this city can be forgotten.

STORY SEEMED TOO AWFUL. Los Angeles was stunned, dazed. At first all the story seemed too awful to be true. As the cries of the newsboys shrieked through the streets the news fed far ahead of them on those mysterious wings that bear abroad calamity's tidings while devastation is in the act, and almost in a breath the fabric of disaster had cloaked the city in gloom.

"San Francisco has been destroyed by an earthquake," leapt from lip to lip. "All the great buildings are tumbling down—fire is raging everywhere—hundreds are dead." So crowded one terrifying detail upon another, until hearts were sick with the hopelessness of the sudden, overwhelming tale. Flags were run to half-mast.

Every street corner was a common meeting place, every newspaper and telegraph office a dazed goal. Thousands of people in Los Angeles had turned into a morose, and there are already 300 bodies laid out there, read the second extra; and the next said 400, and soon the estimated dead had grown to a thousand or more. The people, some of them half-mad with fear for the lives of loved ones in the doomed sister city, besieged the newspapers for names—names—names. But who shall know of names when a city is falling down?

They ran to the telegraph companies, many of them with white faces, some with tear-stained eyes, and there with shaking fingers they scribbled messages, messages, and jostled each

ly to the service of the press until noon, so that the greatest number of people may be informed. That wire may go down any other day, but San Francisco office is on fire now; it is impossible to say how much longer an operator can remain at the key.

Then they would plead those fear-stricken people, and the patient clerks would explain it all over again.

Here pressed a pale woman in great distress, a child held fast in one hand. "It is for my husband," she begged, "and oh, you must send it for me; you must!" As she spoke she thrust the scrawled blank into the hands of a clerk, and he, his eyes falling upon it, shook his head. "It wouldn't be much use if I could send it for you," he said; "we couldn't deliver it to him at the Palace, because the Palace is burned down."

At 11 o'clock the one wire connecting the two cities went down. The company's building had fallen prey to the sweeping flames, and the last man had been forced to run for his very life.

THROUGH TO OAKLAND. Soon after noon the Postal succeeded in establishing connection with Oakland, and then the sending of private telegrams began. There were stacks of them twelve inches high, each in the order of its receipt.

About noon the Associated Press began getting amplified reports from San Francisco by way of Chicago, and later in the day the general news service became somewhat increased. Special correspondents in Los Angeles were showered with "rush" orders and "urgent" entreaties from big eastern papers for San Francisco news without limit as to words.

Around The Times building from 8 o'clock until night stood crowds, scanning the bulletin that from moment to moment were chalked on the blackboards as fast as fresh news came in. Some kept their observation posts for hours, one eye on the boards, the other watchful for the "next extra." These extras were bought with a fever and read with an avidity beyond precedent.

The announcement that The Times had opened a wire with a gift of \$10,000 a subscription list for the earthquake sufferers, quickened to generosity many a heart already touched.

Throughout the day the streets were crowded, and at news points badly congested; but the run of business was low. San Francisco's doom swept trade and commerce aside in the minds of the majority of men. The tension was too high.

be sown as early as possible and be sown, so that the greatest number of people may be informed. That wire may go down any other day, but San Francisco office is on fire now; it is impossible to say how much longer an operator can remain at the key.

who declared "she never voted a straight ticket, because she always voted for the men."

"I applauded, and asked if she would mind telling me how she voted, and why. 'Not at all,' she replied, earnestly. 'I didn't know much about Roosevelt or Parker, but in his pictures Parker is much more handsome than Roosevelt, so I voted for the Democratic electors. I don't like Gov. Peabody's wife, so I voted for Alva Adams. The Republican candidate for County Clerk wants to marry a friend of mine, and could right away, if elected, so I voted for him.'

"The Republican running for Assessor got my vote because he is a dear old man and needed a nice, easy position. The Republican candidate for State Treasurer was a Swede, and I don't like Swedes, so I voted for the Democrat. One of the candidates for County Commissioner on the Democratic ticket, they say, used to run a saloon, so I voted for the Republican. I voted against the Republican candidate for Sheriff because his wife got a divorce from him. I took my husband's advice about the other candidates, because I didn't know anything about them myself."

"I mildly asked if she knew of the special qualifications of any of these men to perform the duties of the several offices for which they were candidates. She replied that she had not troubled about that, because the reasons she had stated were sufficient for her."

### IRISH LEADER LAUDS WEST.

CULTURE IS NOT ALL CENTERED IN BOSTON.

Big Future Predicted by Dr. Hyde for Pacific Coast States—He Found as Many Refined and Intellectual People Here as in "the Hub."

Not all the culture is in Boston. The Middle and Far West have its share. Such is the opinion of Dr. Douglas Hyde, Irishman of letters and founder of the Gaelic League, who is again in Chicago in the course of his long American tour, says the Record-Herald.

"I found as cultured, refined and intellectual people in the West as I met in Boston," said Dr. Hyde at the Virginia Hotel last night. "I also discovered that the further west one travels the more impressed he becomes with the natural hospitality of Americans and with the stupendous possibilities of the country. Within two or three generations I believe, there will be at least 500,000,000 people here. Your natural resources are amazing. Some of the cities out West are growing so fast that there is no time to cut the tree stumps between houses. There are vast stretches of fertile soil unutilized by the plow, and mineral wealth unexplored. One cannot appreciate the magnitude of American resources if he travels over as I have done."

Dr. Hyde was asked what he thought of American men and women, and he answered: "The women have impressed me as being intellectually the superiors of the men. I suppose it is because the men are busy making money."

Asked his opinion of graft and of recent exposures, the savant smiled and said:

"An Irishman named Mike came over and settled in a certain city which I will not name. He was a very honest man, and he had a short time a friend who was going to do for yourself."

"Oh, sure, I'll be making an honest living," replied Mike.

"Well, you ought soon to be a millionaire," said his friend.

"An' why?" asked Mike.

"You'll have so little competition," replied his friend.

The American newspaper is to this country what the French novel is to France. The average individual, reading American papers on arriving from Europe, gets an erroneous idea of the nation and its people. Just so, with the average person who reads the French novel—he comes to the conclusion that France is an immoral country.

Neither opinion is justified. Your newspapers publish everything and put many stories under "sore" headlines which would be holed down to a paragraph and placed on the last page of a British journal. And the French people, especially the provincial French, are as pure and upright as I have seen anywhere. I think, however, that the newspapers here are a great force for the right. Publicity is a fine deterrent to evil and I am glad that the press of America is as free and enlightened as one comes to discover that it is.

"I do not care to discuss these questions in detail," continued Dr. Hyde. "I came here in the interest of the Gaelic League, and prefer to confine myself to that work. You may say that the money collected here will not be expended in a single year, but will be distributed over a period of five years and used exclusively in the work of organization."

Dr. Hyde said he believed the effect of the English elections would be favorable to the extension of Irish home rule.

Ideal Acre Home \$750 up

1.4 CASH, BALANCE EASY TERMS

Magnificent acre home sites in the lightful San Gabriel Valley with modern public improvements and rapid and dependable car service to Angeles. This is the strong appeal Ramona Acres is making to ex-homesekers and investors.

Ramona Acres adjoins beautiful Arroyo—it is just a short walk from the Electric car line and is within a few feet of the new Huntington Hotel. Covina (to be completed this year) which will bring the property within minutes of First and Spring Streets.

The wealth of mountain and grandeur, the perfect soil and conditions and the proximity to Angeles unite in making Ramona a suburban ideal.

The completion of the new electric line will practically double values.

H. E. Huntington has purchased every inch of land adjoining this property.

The "day" of the 50-foot lot passed—the ACRE IS NOW. Why buy a little cramped lot when you can buy a broad ACRE with better advantages for less money. Ramona Acres is a property that is being exploited but for the home element.

Go today and gate the most desirable suburban home location near Los Angeles. Ramona Acres.

WATER—the purest artesian product taken from a depth of 400 feet. Piped to every lot. \$60,000 pumping plant. STREETS graded, oiled and rolled. RESTRICTIONS on Garfield Ave., \$2500; on all other streets, \$1500.

Take alhambra cars. Our big, comfortable automobiles take you to alhambra. Go today. Call our office for FREE literature.

EVENTS IN LOCAL SOCIETY.

VERY quiet and informal affair, but at the same time one of the prettiest weddings that has been held in Los Angeles, was that of the younger daughter of Mr. and Mrs. William A. Rowland, who was united in wedlock with Mr. Clarence H. Moore, son of Dr. and Mrs. M. L. Moore, of the same city, at 11:30 a. m. on Tuesday last. The ceremony was performed at the residence of the bride's parents, No. 505 North Main street, by Rev. Dr. J. H. Moore, who represented each of the families. The bride, Miss Rowland, was a beautiful young woman, and the groom, Mr. Moore, was a young man of fine physique. They were both dressed in white. The bride wore a long train and a large veil. The groom wore a tuxedo. The ceremony was simple and elegant. After the ceremony, the bride and groom were seated at a table with their parents. There were many guests present, including friends and relatives. The reception was held at the residence of the bride's parents. The bride and groom were accompanied by their parents. The ceremony was a success. The bride and groom are now residing in Los Angeles.

will be at home to friends after May 1. In their new home at 1134 East Thirty-sixth street.

**Miss Clark's Dinner.**  
A pleasant Easter dinner was given by Mrs. Ida Clark in honor of her guests, Mrs. Lora Shaffer of Seattle, and Mrs. Nixon of Chicago. The table was particularly attractive, with place cards of real eggs in gay Easter dress, and a centerpiece made from a straw hat, alfalfa and wild grasses, and filled to overflowing with candy eggs. This was presided over by Master Rooter and Mrs. Rabbit. Those invited were Mr. and Mrs. Ed Gird, the Misses Maybell and Lucille Gird and Mr. Van Meter.

**Miss Gibson Entertains.**  
Miss Mae Gibson of No. 1534 South Flower street, entertained the members of the U. C. Club, Five hundred and thirty-five guests, who were awarded to Miss Gertrude Bennett and Miss Ethel Fuller. The score cards and refreshments were carried out in Easter dress. The members are Misses Mae Gibson, Margaret Gilbert, Ethel Fuller, Florence Elliott, Alice Johnson, Mary Bennett, Marion Porter, Edna Blackmore, Lella Von Ache, Mrs. Pearson and Mrs. Mayers. Miss Gertrude Bennett of No. 422 South Alvarado street will entertain the club May 2.

**Massachusetts Society Dance.**  
A social and dance was given by the members of the Massachusetts Society at their headquarters, No. 402 West Fifth street, Saturday evening. Prof. De Chauvencourt and two of his pupils rendered some selections of classical music from well-known authors. His pupils show remarkable talent and proficiency. Refreshments were served. Easter Sunday a party of Massachusetts went out to Hollywood to Mr. Ammann's home, on the hills, where a Massachusetts Easter feast was prepared and most delicious. The feast had, which was well enjoyed by all present.

**For Mrs. Brady.**  
Mr. and Mrs. Winfield S. Lowe of Abbotford Inn, entertained a large company of friends last evening with a dancing party in honor of their daughter, Mrs. Richard G. Brady of Tucson, Ariz., who is here for a visit of several months. The guests were entertained in the large court and here tall grasses and wild oats arranged in Indian baskets were artistic decorations. Mrs. Lowe was assisted in receiving by a number of women and about 100 guests were received.

**U.C. Ball.**  
A fine event Tuesday evening was the ball given by Robert E. Lee Chapter, U. C. C., at Kramer's Hall. It was a charitable affair and a host of charming Southern women danced. Mrs. E. Church, the president, was assisted in receiving by Misses C. B. Nichols, Robert K. Wilson, A. W. Hutton, W. A. Horna, C. L. Stewart, E. A. Loy, W. W. Richardson, T. M. Turner, G. B. Quarrier, John Mack Smith, A. B. Forbes, W. A. Harding, E. G. Robinson, and Ross T. Hickox.

**FINE GROWTH OF FUND.**  
Only Trifle More Than One-third of the Y.M.C.A. Subscriptions Yet to Be Secured.  
Notwithstanding the excitement yesterday on account of the unparalleled calamity that befell the city in the northern part of the State, the committee of the Young Men's Christian Association were able to report a long list of subscriptions to the building fund. The status of the fund is as follows:  
Previously reported, \$216,480; G. I. Cochran, \$200; B. W. Mudd and wife, \$100; Edin Electric Company, \$50; Letter canvass (small amounts), \$20; R. M. Henry, \$20; E. B. Reed, \$20; Warren Gilbert, \$20; A. M. Davidson, \$20; Robert McCarver, \$20; H. G. Getz, \$100; A. B. McCutcheon, \$100; N. Mannington, \$100; City Dye Works, \$100; T. C. Foulis, \$100; John B. Miller, \$100; D. C. McCarver, \$100; F. E. Maude, \$50; A. S. Vandegrift, \$50; H. Stricklin, \$50; E. W. Brodbeck, \$50; Stanley P. Morgan, \$50; Charles W. Evans, \$50; Oleovich & Streicher, \$50; total, \$222,513. Minimum amount still to be raised, \$157,167.

# Pasadena and Enmons.

ALL OVER THE  
TAIL OF A DOG.

CANNED-CANINE SHOW SAVORS  
OF CAYENNE.

It Grewth Hot in Pasadena for  
the Miscreant Who Tied the To-  
mato Can to the Homeless Dog-  
gie's Tail—He Will Be "Peppered"  
If He's Caught.

PASADENA, April 18.—The members  
of the Humane Society have become so  
wrought up over the cruelty of the  
miscreant who tied the tomato can to  
the dog's tail yesterday afternoon, that  
they have offered a reward of \$10 for  
information that will lead to the ar-  
rest and conviction of the guilty party.

"This sort of thing must be stopped  
at once," said a prominent member of  
the society today, "and we will do all  
in our power to bring the guilty party  
to justice. The dog may have been  
worthless, but he had as much feel-  
ing as any other dog and should have  
received humane treatment. If there  
is any dog that is a nuisance to him-  
self and to the community, the soci-  
ety will put him out of the world in  
a painless and humane way."

# RECEIVES IN A "SHANTY."

RUSSIAN WOMAN-RELIEF LEAD  
ER WELCOMES GUESTS.

Pasadena Home Scene  
of Pretty Party—Quaint Looking  
Russian Women Make Tea in a  
Real Russian Samovar, and Some  
Rare Needlework is Exhibited.

PASADENA, April 18.—Madame Vera  
de Blumenthal received many guests  
today at her picturesque "Shanty" on  
Euclid avenue, where she has a large  
quantity of exquisitely wrought Rus-  
sian needlework arranged for inspec-  
tion.

Madame de Blumenthal represents a  
large society of philanthropic Russian  
women who have espoused the cause  
of the down-trodden Russian peas-  
ants. Eminent among these women is  
the niece of Count Tolstoy, the Countess  
Soukhomlinoff.

Madame Davidoff and Princess Teni-  
cheff are two distinguished Russian  
women who are in close touch with  
these efforts to open greater oppor-  
tunities for the peasant worker and  
through them that the beautiful Rus-  
sian needlework comes to this country, to  
be displayed in a fair and just price.

At the Euclid-avenue home today  
there were very interesting features.  
Two quaint-looking Russian women  
made tea in a real Russian samovar.  
On an attractively-spread tea table,  
under the fruit trees and surrounded  
by the most riotous rose vines in full  
bloom, the vivacious Russian held her  
court. She takes no credit to herself  
for her work, but tells her guests many  
pithy and interesting stories of her  
countrywomen. In spite of the moder-  
ate prices and the 40-per-cent duty  
which she has to pay, she says that  
the money she sends to Russia is a  
gain of 40 per cent over the prices paid  
by the peasants by the "middlemen," who  
take advantage of the ignorance and  
desperate need of the people.

LECTURE ON VESUVIUS.  
PASADENA, April 18.—At the En-  
glish Classical School, No. 134 South  
Euclid avenue, Miss Ada Trotter will  
give a lecture on Mount Vesuvius, at  
the Pomona Hotel, Friday, April 20. All  
interested are invited to attend.

INSPECTOR ENTERTAINED.  
Captain Brady, District Supervisor, Re-  
ceived on His Visit to Sierra  
Madre.

SIERRA MADRE, April 18.—Capt.  
Brady, Supervisor from this district,  
was entertained Monday night by F.  
L. Hosack. The captain was on a  
tour of inspection, looking into the  
needs of the community.

HIS THIRD RUNAWAY.  
Walter Wink, an employee of the  
Central Meat Market, met with his  
third runaway accident within a  
month, this morning, his injuries this  
time incapacitating him for business.

He had left his horse hitched to a  
weight. The animal began running  
in a circle. He attempted to hold him,  
but without avail. He was dragged  
quite a distance, then trampled on by  
the horse, and run over by the wagon.

He was picked up and assisted to  
the shop, where medical attention was  
given him. No bones were found  
broken, though his back is badly  
wrenched and his head and legs badly  
bruised. The horse was caught at  
Lamanda Park. The wagon was  
found on the way there, somewhat  
battered, but not beyond repair.

TOLD IN A NUTSHELL.  
Mrs. J. A. Osgood delightfully en-  
tertained a select group of parliamentary  
classes from Los Angeles yesterday  
afternoon at her Oakwood home.

Lunch was served under the oaks.  
Mrs. C. K. Knickerbocker of Chil-  
dago, who has been spending the win-  
ter months with Mrs. Mather, left to-  
day for her home.

Mrs. S. W. Andrews entertained the  
J. A. Adams, a Los Angeles contract-  
or, has begun the erection of a \$1000  
home in the Monte Lido tract of Chil-  
dago, a recent newcomer from Iowa.

J. M. Beard of Hotel Mt. Wilson,  
came down the trail today. He tells  
of the most of the next getting back to  
his bearings. He says that long  
stretches of new pains will need to be  
made before any attempt to go  
around over there.

VAINLY SEEK TIDINGS.  
Monrovia People Have Many Friends and  
Relatives in Earthquake  
Territory.

MONROVIA, April 18.—The Times  
headquarters here today have been the  
gathering place for crowds of people  
who fought for the extra editions as  
they arrived in the hope of learning  
some definite news of absent friends  
and relatives in San Francisco, San  
Jose, and Berkeley. They were eager  
to know the neighborhoods which suf-  
fered most severely from the earth-  
quake and fire, and more than a dozen  
families will spend sleepless nights un-  
til the wires are open for messages  
from the endangered ones in the north.

Among those absent from Monrovia  
is Dr. F. M. Pottenger, president of the  
State Anti-Tuberculosis League, who  
with Mrs. Pottenger, is visiting at No.  
800 Butter street, San Francisco. Dr.  
Spence, a brother of the late M. F.  
Spence, is at Berkeley, engaged with  
the firm of Needham & Needham.

Myrtle Bailey and Mrs. V. T. Dyer,  
daughters of W. N. Monroe, founder  
of Monrovia, are living at the Edgemo-  
re Hotel on Bush street; their  
brother, George Monroe, who is now  
here, is making frantic efforts to get  
word to them.

J. E. McClymonds, city engineer,  
will go north in the morning to try to  
reach the fate of his brother, J. J.  
McClymonds, Pacific Coast agent of the  
Armour Company, who is in San Fran-  
cisco. Kenneth Bowerman, brother of  
J. H. Bartlett of the First National Bank,  
is the proprietor of a drug store at the  
corner of Polk and Sutter streets. Mrs.  
J. R. Cutting, living at 1125 Clay street,  
is also conductor of the Santa Fe pas-  
senger train running between San Fran-  
cisco and San Jose. Relatives of  
Mrs. Reynolds in San Francisco are  
George Wagner, clerk in the Main post-  
office on Seventh and Mission streets,  
night-shift; Arthur Wagner, living at  
No. 1125 Clay street; W. T. Wagner at  
No. 1175 Edgewood street; and the  
brothers of Mrs. Reynolds. Her uncle,  
Dr. John Wagner, lives at Sixteenth  
and Valencia streets and his wife and

# OUR CONDOR EGGS VALUABLE.

"HEN FRUIT" NOT THE ONLY KIND  
THAT JUMPS IN PRICE.

Many California and Southwest  
Bird-Eggs Bring Small Fortunes.  
One Auk Egg Now Valued at Ten  
Thousand Dollars—California Par-  
rot Eggs Worth Much.

By reason of the extinction of certain  
classes of birds, there are many eggs  
which are so scarce and costly that  
they can be termed rarities without  
fear of exaggeration. The rarest of  
all eggs is that laid by the condor. At  
the present moment, says the Scientific  
American, there is not in existence one  
single dozen perfect specimens, and the  
few there are can be seen solely in  
some of the wealthiest and richest col-  
lections.

The condor, which is found in South-  
ern California and the Andes, is now  
hopelessly doomed to die out. It is  
also practically impossible to collect  
any fresh specimens of its eggs, as  
these are rare and extremely shy birds.  
In the most rugged and inaccessible  
fastnesses of the San Bernardino and  
San Jacinto mountains. Hence its  
plundering (two very different  
things, by the way) a condor's nest is  
regarded as a most wonderful and sen-  
sational event. In fact, the price of one  
single perfect specimen, and the few  
there are can be seen solely in  
some of the wealthiest and richest col-  
lections.

Still more costly are the eggs of the  
great auk, or garofin, a flightless  
marine bird, with large head, heavy  
body and compact plumage. In the  
living specimens of which were discov-  
ered and killed in Iceland in the year  
1844. One of these eggs is now to be  
seen, carefully preserved under a glass  
case, in the National Museum at Wash-  
ington. The original owner sold it in  
London for \$2,000 in the year 1841,  
whereas its present value is estimated  
at more than \$200,000.

In 1852 two other eggs were  
sold in London for \$25 (\$25 apiece,  
while in 1869 a nobleman (Lord Cas-  
arag) paid \$74 (\$74 for a damaged  
specimen. A Scotchman of the name  
of Powell was fortunate to buy two  
of these eggs in Edinburgh in 1879 for  
the sum of \$25. A few weeks after-  
ward he sold them for \$250 (\$250  
each. In 1887 an auk's egg, which was  
sold for \$25 (\$250 in 1887, realized  
\$200 in America. At the present time  
there are only from seventy to eighty  
specimens known to be still in ex-  
istence; twelve of these are in the  
British Museum (London).

This bird died out because of its in-  
ability to fly and of the difficulty of  
its movements upon dry land. It used  
to nest in thousands on Punk Island  
(a rocky islet opposite the coast of  
Newfoundland), which at one time was  
regarded as a kind of provisioning sta-  
tion by whalers, who used to kill the  
fat and palatable bird in hundreds.  
The birds were knocked on the head  
with clubs, picked up and taken to  
fetch a good price and sold for  
future consumption.

Funk Island also used to afford shel-  
ter for every yearling of one of the  
countless numbers of other natatory  
birds, among them being the white  
cuckoo (Sula bassana). These birds  
have also met with the same fate as  
the auk. In the year 1880 their nests  
were still to be seen in thousands, but  
the time of writing it would prob-  
ably be matter of impossibility to  
find one solitary specimen.

Without slaughter and the scaring  
away of the birds—due to the erection  
of a signal station on the island which  
used to fire off a shot every minute  
in foggy weather—soon led to a thin-  
ning of their ranks, and the species of  
their eggs already began to rise in  
the 70's. Now they are great rarities  
and fetch large sums, but unfortu-  
nately there are no specimens in the  
market. Some specimens are on view  
at the Smithsonian Institution and at  
the American Museum of Natural His-  
tory in New York.

Large sums are also paid for the  
eggs of the great auk, or garofin, a  
flightless marine bird, with large head,  
heavy body and compact plumage. In  
the living specimens of which were dis-  
covered and killed in Iceland in the year  
1844. One of these eggs is now to be  
seen, carefully preserved under a glass  
case, in the National Museum at Wash-  
ington. The original owner sold it in  
London for \$2,000 in the year 1841,  
whereas its present value is estimated  
at more than \$200,000.

THE TIMES, with its Southern California  
Section, circulates "all long shorn."

Supplied With Pedigrees.  
Full many a flower of literature is  
learn to bluish unseen in the recesses of  
the waste-paper basket, or maybe, hid-  
den away on the shelf as an official  
secret. Here are portions of an edu-  
cation, the humble application of one  
whose father enjoyed a well-earned  
pension "by the time he gave up the  
ghost," which are worthy perhaps to be  
rescued from the rubbish heap: "I  
am five feet five inches high, and my  
chest is thirty-four inches broad. I  
have a good long equine nose, pierc-  
ing eyes, and good arched brows on  
a sunny-glowing face, high cheek-  
bones, projecting ears, with Kathla-  
weat color complexion. I am  
in full bloom of my youth and have  
passed teens and entered twentieth  
year of my life. My family has a his-  
tory that takes my imagination back to  
three pedigrees. This democratic world  
is easily lacking in imagination, or  
otherwise the "three pedigrees" should  
have sufficed to secure applicant the  
coveted post.—[Pioneer Mail of India.

# UNION METHODS IN LIMELIGHT.

Implicates Bloodthirsty Gang of  
Walking Delegates Who Have Ruled  
in a Reign of Terror in Gotham.  
"Might is Right, So's Dynamite,"  
the Theory on Which They Work.

NEW YORK, April 18.—Charles Mor-  
an, a member of the Bridgemen's  
and Housemen's Union, who was re-  
sted several weeks ago with two  
other ironworkers, charged with at-  
tempting to dynamite the Ellis build-  
ing, being erected on East Twenty-  
third street by Post & McCord, made a  
complete confession to Asst. Dis-  
trict Atty. Train. Mr. Train says he  
implicated several walking dele-  
gates of the New York and New Jer-  
sey branches of the union, says the  
New York Tribune, declaring that they  
put up the money to have not only the  
Ellis building dynamited, but other  
buildings destroyed and the work of  
construction halted. As it is not known  
whether Moran's story can be prop-  
erly corroborated, the District At-  
torney's office has refused to divulge  
names.

Moran sent word to the District At-  
torney's office that he was willing to  
waive trial and plead guilty to the  
charge on which he and the other two  
ironworkers were indicted.

Moran was taken into custody with  
Thomas Weir and John Guthrie as they  
were about to place twenty pounds of  
dynamite in the Ellis building. The  
men were indicted at once. A week  
after Moran's confession, the walking  
delegates, Moran and Weir and the walk-  
ing delegates. The story told to Asst.  
Dist. Atty. Train yesterday was sub-  
stantially the same as that recited by  
Guthrie.

Moran was with Asst. Dist. Atty.  
Train more than two hours yesterday.  
His counsel was present when the full  
confession was made and signed.

LOCAL NEWS REPORTS FROM TIMES CORRESPONDENTS UP TO 5 O'CLOCK A.M.

## SAVES NIECE, BURNS HANDS.

### LONG BEACH ACCIDENT ALMOST A FATALITY.

Young Woman from Kentucky  
Stands Beside Gas Stove Reading  
Newspaper When a Gust Fans Her  
Apron Into Flames—Vigorous Ac-  
tion Averts Serious Results.

LONG BEACH, April 18.—Attorney Stephen G. Long, senior member of the firm of Long & Baker, was badly burned about the hands this morning in a successful effort to save his niece, Miss Beulah Byrne, from burning to death. Miss Byrne, who is here on a visit from Russellville, Ky., was standing beside a gas stove reading a newspaper, when a gust of wind blew through an open door fanned her apron into the flame and in a second apron and dress were blazing furiously.

Mr. Long heard his niece scream and rushing to the kitchen to see the situation at a glance, and, seeing the flaming fabric in his hands, succeeded in smothering the blaze.

Miss Byrne escaped injury except for a nervous shock, but one of Mr. Long's hands and arm are badly burned, as well as three fingers on the right hand.

The City Council met last night in adjourned session and appointed J. J. Hart, an ex-City Trustee, and J. J. Recorder, as C. J. Taylor was re-appointed Street Superintendent. The City Clerk was instructed to notify the police that the building at 1000 S. Main St. is to be vacated by the city and that the city is to be occupied by the city.

VENICE, April 18.—Charles H. Brown, right-of-way agent for the proposed boulevard from Los Angeles to the sea at Venice, reports unlooked-for success in securing the concessions asked for all along the line.

He declares the right of way for practically the entire distance has been secured, and that Washington street will be widened the entire distance to 100 feet.

Property owners along the route, he states, have determined that the road must be built. He says a mass meeting of all property owners interested will be held at an early day.

The route passes through the lands of the Houser and Soutous Packing companies, between The Palms and Vineyard. Mr. Brown says the members of these companies are taking a deep interest in the project, and promising to contribute generously to the fund for building the road.

Working for Canal.  
As mentioned in Monday's Times, a drainage and pleasure canal to cost \$50,000, with possibilities of commercial use, will be dredged from Anaheim street north to the city limits, along Magnolia avenue. The first step was taken last night in the organization of the Great Long Beach Improvement Club, with Harry H. Hamilton chairman and Emmett May as secretary.

Two committees were appointed, one to take up two phases of the work: Canal, Wilson, Townsend, Bond, Morey, May and Clegg, Reclamation, Rich and Weinberg. The latter committee has in charge the continuation of the canal north of Willow street to the city limits.

Rev. E. J. Bulgin, the Evangelist, injured several weeks ago in a wreck on the Salt Lake, suffered another severe hemorrhage at 4 o'clock this morning at his home in this city, and is in a precarious physical condition. Dr. Bulgin attempted to resume his ministerial labors before he had fully recovered, and suffered a relapse.

The work of rebuilding the old Oceanic Hotel at First and Pacific streets began today and the lot will be cleared by next Monday ready for beginning work on the six-story block to be erected by Jotham Bixby for use as a department store.

ON THE BRIDGE AT MIDNIGHT.  
A Santa Monica Man Gets Held Up by Two Mexicans and Is Relieved of \$25.00.

SANTA MONICA, April 18.—"Hands up!" This command, delivered in a Spanish voice, Monday night, brought Will Gibson to a sudden halt. It was dark, and alone he was crossing the Seventh-street bridge near Colorado avenue.

He had both hands filled with bundles that he could not readily dispose of, and there was left for him nothing to do but to halt. Two men with clothes tied over their faces proceeded to relieve him of his money. After Gibson had convinced them that he was not armed, they proceeded to take his money.

The two men, who are described by him as being Mexicans, leisurely went through his pockets and relieved him of \$25.00, after which they sent him on his way.

OTHER ITEMS.  
By the tipping over of a wagon at the railroad grading camp yesterday, Edward Walsh suffered the fracture of his leg.

Miss Rachel M. Sharp has tendered her resignation as teacher at the public schools in Irwin Heights.

ABANDON CHURCH SYNDICATE.  
Long Beach Methodists Decide to Sell Present Site at Stated Figure.

LONG BEACH, April 18.—The trustees of the First Methodist Church have decided to abandon the syndicate scheme of subscribing stock for the new church, and holding the present site in trust until it can be sold for \$100,000.

This act was recommended and the trustees were authorized to sell for \$75,000, the price which can now be obtained. Then \$25,000 subscription had been raised, making \$100,000 in all. The new site will cost \$30,000, leaving \$50,000 with which to build and furnish the new church, which may be under existing instead of sandstone, as at first decided.

Mayor Downs yesterday said that just as soon as possible steps will be taken toward framing a special charter for Long Beach. "The city," said he, "has struggled along under existing conditions just as long as it can, and everybody realizes that an advance in class is an absolute necessity. The time is growing short until the next session of the legislature and we cannot afford to wait a single moment."

At a meeting of the Sons of Veterans Monday, H. E. Eno, Smith Shallenberger, S. A. Maybur, H. Culver and S. Hazeltine were appointed a Memorial Day Committee to act in conjunction with the committee from the G.A.R., W.R.C. and Ladies' Auxiliary. The joint meeting will be held April 24.

Propositions are being entertained by the City Trustees for the renting of the sun pavilion on the outer wharf for skating rink purposes. Offers have been received ranging from \$3000 to \$5000 per year rental. The trustees look with favor upon the project.

Dr. A. B. Austin of this city, late Captain of Co. H, Seventh Regiment, N.G.C., has been appointed battalion commander and quartermaster of the staff of Maj. Saltmarsh. At present Lieut. Paine is in command of the company.

George Hai, a Chinese cook employed at Shoup's Tavern, was on his way home in a Pacific Electric car from a Los Angeles hospital this morning, when a party of drunken hoodlums on the car began abusing and reviling him. Hai attempted to leave the car at First and American avenues and one of the fellows struck him a vicious blow, hurling him from the car. A John Doe warrant was issued and Deputy Constable Folsom is looking for the assailant.

## EARTHQUAKE WAS DISTINCT.

### FATAL SHOCK WAS STRONG AT SANTA MONICA.

Lamps Swung Like Pendulums,  
Houses Creaked and Groaned.  
Vibration Aroused Sleepers With a  
Start—No Damage Done, and No  
High Tide Marked Seismic Tremor.

SANTA MONICA, April 18.—The earthquake shock was distinctly felt by residents along this bay at 5:15 this morning.

Suspended lamps swung to and fro like so many great pendulums. Crockery and glassware rattled and house timbers creaked and groaned.

There was a vibration that aroused light sleepers with a start. No damage was done, and not even an extraordinary high wave resulted from the tremor.

BAY BRIEFS.  
The school trustees have decided to add another \$5000 to the fund to be devoted to the erection of a new school building in Washington Place for the accommodation of The Palms.

The building is to be located on Sixth street, between Broadway and Montana, and will be a four-room structure costing \$35,000 and all. Two additional lots are to be added to the present site.

Sixth-street school property and \$30,000 will be expended there on a new building of nine rooms. Only \$2500 will be spent on the new building.

This will be a temporary structure, as the trustees deem the \$10,000 proposed as inadequate even for the future.

The Los Angeles-Pacific is engaged in arranging a new schedule by which the Santa Monica line will be given a half-hour service in each direction. The new schedule is to go into effect Monday.

It has been decided to run the new road each hour. This will leave Los Angeles at twenty-five minutes after the hour. It will run through to Venice, making the trip in an hour and a half. On the return trip it will leave Venice on the hour.

The present Hollywood service, a side extension of the Colegrove run, will be discontinued. The new line will be a combination arranged between the Santa Monica local service and the Westgate and Hollywood branches.

Westgate and Brentwood are assured of two cars each way per hour.

John Keane is returning to his home in Mason City, Iowa. He spent the winter here by the sea, as he has been doing for the past several years.

James McFar has been passing several days with friends in Pasadena.

NEW CHURCH A BEAUTY.  
Gothic-Mission Edifice at Avalon Ready to Be Used for Worship by Congregation.

AVALON, April 18.—The remodeled Congregational Church which was used for the first time Easter Sunday, is now receiving the finishing touches of painter and mechanic, and presents quite a different appearance from the one which was originally intended.

The church is a semi-gothic and mission style, with a symmetrical tower and mission porch in front, at one corner of the pastor's study, a circular room with a dome, and at the other corner a large tower, a large class room.

## TRAGIC FIRE AT NEEDLES.

### FOUR MONTHS' INFANT BURNED TO DEATH IN HOUSE.

Explosion of Gasoline Stove Reduces House to Ashes, and Brings Death to Little One—Mother Unable to Break In Door, and Premises Are Wracked in Hungry Flames.

SAN BERNARDINO COUNTY.  
The passenger steamer Roanoke, which arrived today, proved her superiority in speed over the Pacific Coast Steamship Company's steamer Pomona on the present trip to this port in the run between Bureka and San Francisco.

Some time ago the Pomona beat the Roanoke on a run down the coast, and rivalry between the steamer companies of the coast has been great. The chance to play even came to the Roanoke when the Pomona crossed over the Humboldt bar with not more than a minute between them, and the Roanoke was the victor.

The Roanoke won over her rival by forty-five minutes.

"SKY LINE" DRIVE.  
Whittier Project Now Assuming More Definite Shape and Leases Are Secured.

WHITTIER, April 18.—The Sky Line Drive, which is to make Whittier famous, is assuming more definite shape. The project has been given more definite shape. The project has been given more definite shape.

The line which has been decided upon goes from the head of Greenleaf street, crossing the street of the three hills in the first range, and intersecting the North Whittier road.

It continues to Mount Lookout, the highest point in the Puente Hills in this vicinity, thence around the ridge to the reservoir of the Central Water Company, thence back via the Fidelity, Turner and Home fields and enters the city at the head of Bunker Hill.

WHITTIER WAIFS.  
The City Council reorganized at its last meeting and J. H. Wilkins was elected president of the board. J. H. Wilkins was appointed to take the place of the late Mayor.

He was given the oath of office. Fred M. Foster was chosen as night watchman. The Board of Public Works is considering a bill which will set forth the advantages of the Hillside City. It will be proposed to the Board of Public Works.

The G.A.R. Post will have an open house at the Bunker Hill Hotel, to which the Woman's Relief Corps, Sons of Veterans, Spanish-American War participants and all visiting comrades are invited.

BENEFIT AT HOLLYWOOD.  
HOLLYWOOD, April 18.—On Saturday, April 20, a fair will be given at the home of Long Beach, California, to go to the victims of the San Francisco disaster. Chaffetz's band will be in charge of the entertainment.
